AGENCY WORKERS & THIRD PARTY DRIVERS

Dear Colleagues

At the recent NSSF meeting, shop stewards advised that there are still periodic problems with agency and third party drivers on some sites, where they are being used in such a way that disadvantages our members.

If this is happening it is important that formal grievances are registered in the first instance, at a local level.

It is essential that we formally log any mismanagement of agency and third party resources.

A handwritten signature in black ink, appearing to read 'Gary Smith'.
