The single most cost effective way
of making our roads safer,
and cleaner,
and our communities even
nicer places to live.

Dean Evans Author Admin

Alison Hernandez, Police and Crime Commissioner
(& Conservative Candidate for 6th May election)
Devon, Cornwall & the Isles of Scilly

Dear Dean, I have been working with the Conservative Cornwall Cllr candidates during this campaign. If they win the Council they are certainly supportive of more 20mph limits as it is the local authority that can change this.

We all had a presentation from the 20's Plenty Campaign Group with much enthusiasm all round.

As I am the national lead for PCCs on roads policing/safety I am determined to increase resources in this area too across the country. And as Chairman of the Road Safety Peninsula Partnership we are committed to Vision Zero. An ambitious vision of zero road deaths and seriously injured by 2040.

Here's a link to more info: <https://www.devonandcornwall-pcc.gov.uk/.../south-west.../>

I am expecting a step change in the way we tackle road safety in July this year linked to utilising the monies from the driver awareness courses. So I want to get elected to see this through. Hope this helps reassure you

Kindest regards

Alison Hernandez
Police and Crime Commissioner

Chacewater Parish Council

1 h • 

At the meeting held on 28th May 2021, Chacewater Parish Council passed the motion to support the 20's plenty campaign for Cornwall and agreed to try our hardest to implement this in Chacewater. Everyone can get involved with this.
