Democracy depends on a strong ABC

Globally, we are witnessing a rapidly changing political climate. Independent news, Australian voices and perspectives are more important than ever.

We need the ABC more than ever.

But public broadcasting is under attack, most notably in the US. And these threats also arise in Australia. The ABC needs Friends.

Our vision is for a strong, independent ABC, valued by all Australians and fully supported by government.

Help us speak about challenges the ABC faces that matter in YOUR community, be it regional news, Australian-made programs, emergency broadcasting or independent news and current affairs to tackle misinformation.
