

Our ABC has occasion for praise but occasional failures

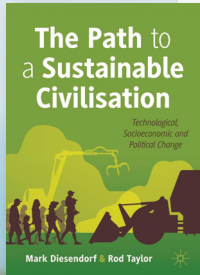

This can't be another

“ Democratic decision-making is under threat, not least by politically-powerful vested interests, including those amassing profits from fossil fuels, property development, gambling and arms production.

The mass media must expose these threats and help ensure governments make choices democratically — in our best interests. **As the public broadcaster, the ABC must be scrupulous in its interrogation and dissemination.** ”

Dr Mark Diesendorf is Honorary Associate Professor in Environment & Society at UNSW Sydney.
His latest book is **The Path to a Sustainable Civilisation: Technological, Socioeconomic and Political Change**

WE MUST FIGHT ECONOMIC, SOCIAL AND POLITICAL MYTHS
