

ACE New Zealand SUBSCRIPTION STRUCTURE

Basis of the subscription rate

The ACENZ subscription structure is based on the size of member firms as reported at the beginning of each year (1 January). Currently the unit base rate has been set at \$844 + GST.
Subscriptions are calculated according to a sliding scale, which is simplified on this table. Invoices will be dated for April & September, with the first instalment as half of the yearly subscription.

Example:

1 principal
1 surveyor
1 draughtsman working 5 x 1/2 day

A firm has the following employees:

2 engineers
1 CAD operator
1 receptionist working 5 x 1/2 day

Total = 6 full time equivalent staff

The multiplier for a firm with six full time equivalent staff is 2.25.
The subscription would therefore be: \$844 x 2.25 = \$1,899 + GST.
