

Intermediate First Aid & CPR-C  
Blended Training

# HeartSafe EMS is Back

## Just in time for Ontario's new First Aid Program

HeartSafe EMS is pleased to reconnect with Ontario's ECE and child care community. Our blended program helps certify your team with online learning and a practical instructor-led skills session at your child care centre.

Practical training from experienced frontline responders  
We do not simply issue a certificate. We help ECE and child care professionals feel ready to act when a child, co-worker, or family member needs help.

### WSIB transition note

Ontario's updated WSIB First Aid Program launched June 22, 2026. Standard First Aid is now called Intermediate First Aid, and certificates issued up to June 21, 2026 remain valid until they expire.

## Designed for child care programs like yours

### ● Protect classroom time

Minimize staff time away from children and daily routines.

### ● Train at your location

Reduce travel, scheduling, and replacement-staff pressure.

### ● Certify your team

Support new employees and eligible recertifications.

### ● Blended learning

Awareness and knowledge online, at each learner's pace.

### ● Hands-on practice

Essential first aid, CPR, and AED skills with an instructor.

### ● Group pricing

Ask about child care centre group sessions and planning.

Already certified with another organization? Eligible participants with a valid Standard First Aid certificate from another WSIB-approved training provider may recertify into the updated Intermediate First Aid program, subject to WSIB recertification requirements.

Book your child care team:

**heartsafe.ca | gburke@heartsafe.ca**

Ask about group pricing and training at your child care centre.

*Welcome back  
to a simpler way  
to stay certified.*
