

SCHOOLS FOR OUR FUTURE

A National Inquiry Into Australia's
Public School Infrastructure Needs.

20,000

demountable buildings
are currently in public schools
across Australia.

14,000

additional permanent classrooms
are needed by 2030 to cater for
rising student enrolments.

63%

of learning spaces
do not adequately meet the
needs of students with disability.

How can you help?

Share your story by making a submission.

The inquiry is seeking submissions from students, teachers, principals, support staff, parents and family members, governments, organisations and individuals with an interest in education and the future of public schools.

Tell us what's working and what needs to change when it comes to public school infrastructure.

Submissions are open until 30th June 2026.
