**Edward
Cameron**
Candidate for
Vaucluse

**Alison
Waters**
Lead Candidate
for the Upper House

BE SURE TO VOTE **1** ANIMAL JUSTICE PARTY ON BOTH BALLOTS.

VOTE **1** ANIMAL JUSTICE PARTY

Here's what we've won so far...

The Animal Justice Party has three state MPs and two Councillors.

In NSW we've passed more private members' bills than any other party. **No one is fighting harder than us!**

In NSW our MPs have:

- Outlawed convenience killing in pounds
- Ended the use of dolphins and whales for entertainment
- Secured over \$70 million in funding for:
 - Animal cruelty enforcement
 - Animal rescue groups
 - Mobile vet clinics to help animals in fires and floods,
 - Treatment of wombat mange

There are no wasted votes in the preferential system.

Animals can't afford to be put second. Give Animal Justice Party your #1 spot. If we don't get in, your full vote goes to whoever you put #2.

Protect our unique way of life and environment here on the beach – people, animals and nature

Edward Cameron is passionate about protecting our community from overdevelopment and preserving our coastal environment – including the marine animals who are part of our community.

A vote for Edward Cameron is a vote to:

- ☐ End overdevelopment and protect our green urban spaces.
- ☐ Create a Sydney marine sanctuary. Add Sydney Harbour to the protected marine parks network – we have incredible marine biodiversity here, with 675 species of fish calling Sydney home. Let's protect them with a 'no-take' zone.
- ☐ Ban puppy farms – dogs should not be exploited in factory farm-style breeding operations.
- ☐ Shut down the taxpayer-funded horse racing and greyhound racing industries.
- ☐ Replace deadly shark nets and drumlines with more effective modern technologies that protect both humans and animals.
- ☐ Protect renters' right to have pets. Allow pets on public transport. These are real issues during the cost-of-living crisis.
- ☐ End land clearing. Protect native forests.
- ☐ Declare a climate emergency. No new coal, gas or oil.
- ☐ Renewable energy target of 100% by 2030. Support farmers to transition to sustainable agriculture.
- ☐ Free hens from battery cages and end all factory farming.
