Jacob Moroza-Rasmussen

Secretary General

ALDE Party

Rue d'Idalie 11 - box 2

1050 Brussels

Belgium

Dear Mr. Moroza-Rasmussen,

On behalf of the Holos Political Party, I write to nominate myself for one of the positions of Vice President of the ALDE Party.

As the leader of the Holos Political Party (full member of the ALDE family since 2020), I have been actively involved in foreign affairs and international cooperation as a spokeswoman at numerous conferences, and roundtables, including many ALDE Party and ALDE member party events.

When war broke out in my country, it was the ALDE Party that was the first organisation to offer its support and I would like to express my sincere gratitude to all ALDE members for that. During these difficult times of war in Ukraine, I have devoted my time and energy into raising awareness of what is happening in my country and coordinating international response on the ground. As a Vice President of the ALDE Party, I wish to work hard and support ALDE and its members in the same way you have provided support to Ukraine.

My main focus as the candidate for the position of VP is to strengthen ALDE from the following perspectives: ensure the representation of non-EU, Eastern European, and Western Balkan countries in the decision-making bodies with their views on policymaking to be included, as well as strive for ALDE to become an example in women leadership and gender equality.

Moreover, true to my background and current position as a Member of the Parliament of Ukraine and First Deputy Chairwoman of the Committee on Digital Transformation, I am a strong proponent of innovations in public governance. I do hope that Ukraine's progressive approach toward digitalization can be beneficial in setting digital policies and strategies within Europe.

I am confident that the power of liberals is our strong loyalty to the principles of freedom, equality, justice, and human rights. For us, these are not empty words but specific values that

we are ready to secure and protect, just like Ukraine is doing at this very moment.

As a VP, I want to make sure that ALDE as an organization and as a community becomes the leader and pacesetter in Europe for making our countries more just, equal, innovative, and safe.

At these challenging times, ALDE needs to be united and inclusive, and I truly hope that my candidacy will strengthen the Party and its members.

Yours sincerely,

Kira Rudik
Leader of the Holos Political Party
Member of Parliament of Ukraine
