

# TIME TO ACT ON MALE SUICIDE IN VICTORIA

Male suicides in Victoria up

**40%**  
IN 10 YEARS

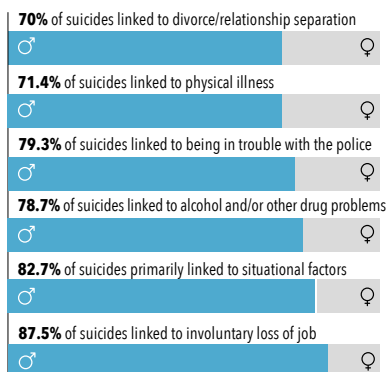

**3 in 4**  
Suicides are men

Suicide kills  
**11 MEN**  
every week  
in Victoria

Male suicides  
are more often  
linked to social  
issues than  
female suicides

Most men who die by  
suicide are in contact  
with services prior  
to taking their lives.

90% of those with a mental  
health diagnosis who died by  
suicide were in treatment.

The National Suicide  
Prevention Adviser  
says State Governments  
should target funding  
at male suicide

In April 2022, \$800M was  
allocated to Mental Health and  
Suicide Prevention in Victoria.  
Most of the projects funded will  
reach more women than men.

**4 in 5** Victorians

support additional Government funding  
to tackle men's health and social issues

Victoria is developing it's next  
suicide prevention strategy.

It's time to act on
