

WEST END & WESTSIDE ATL

Where's My Project?

In 2022, Atlanta voters approved funding for safety projects, including sidewalks, safer crossings, and protected infrastructure, through Moving Atlanta Forward to make everyday travel safer.

Today, only 27% of those projects have reached the street. While safety projects stall, the City is rapidly delivering \$120 million in resurfacing projects approved in 2024 ahead of the 2026 World Cup. This shows that what gets built reflects who and what the City prioritizes.

27%

of sidewalk and Safe Streets Projects citywide have reached the street.

= Complete = Incomplete

Just 1 in 4 key safety projects has moved to construction. Most promised protections don't exist yet.

What was promised?

Below are our priorities of the projects funded and approved by voters:

- Allene Ave & Avon Ave Intersection Improvements
- D.L. Hollowell Pkwy Sidewalk Installation
- West Lake Ave & MLK Jr Dr Intersection Improvements
- Whitehall St Safe Street
- MLK Jr Dr Safety Improvements
- MLK Jr Dr Sidewalk Installation
- J.E. Boone Blvd / Collier Dr Sidewalk Installation
- Marietta Blvd Safe Street

Where is it now?

Most of these projects remain in the planning or design process. This reflects a broader citywide pattern where important safety projects are not constructed.

What is missing?

Continuous sidewalks, ending large gaps that force people into streets

Accessible curb ramps are being installed, but not paired with full intersection safety upgrades

Safe, visible crossings at high-injury locations

Protected safety infrastructure on key corridors

Streets are being resurfaced without the full safety upgrades voters approved

WEST END & WESTSIDE ATL

Where's My Project?

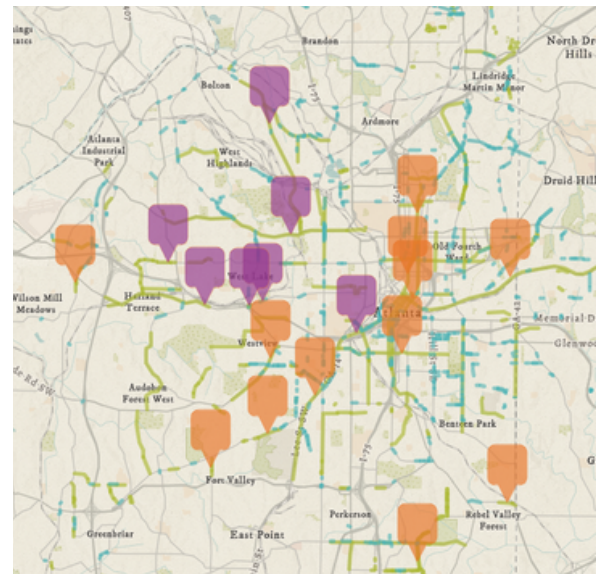

Why does this matter?

Every day, Atlanta residents cross unsafe streets to reach transit, work, school, and groceries. Without sidewalks, safe crossings, and safe, accessible design for people with disabilities, routine trips become dangerous.

Delaying these projects leaves people exposed to easily avoidable harm. Safe streets are essential infrastructure for a walkable, livable city.

You deserve to move through your neighborhood safely and with dignity.

 = West End & Westside Projects  = Citywide Projects

The Clear Ask

We call on the City of Atlanta to:

- 1 Advance stalled projects into construction within 12 months
- 2 Deliver resurfacing with sidewalks, ADA, and safety upgrades
- 3 Publish clear, public timelines for every project
