

2025 ARIZONA HOSPITAL LEADERSHIP CONFERENCE

AzHHA Foundation

DESIGNING A MORE EFFICIENT & HIGHER QUALITY PATIENT-CENTERED HEALTHCARE DELIVERY MODEL

ACHE CATEGORY | FACE-TO-FACE EDUCATION

SESSION DESCRIPTION

Improving patient care requires a multi-faceted strategy that centers on patient needs, operational efficiency and team collaboration. This session explores how healthcare systems can integrate new technologies—especially AI and machine learning—to enhance diagnostics, personalize treatment and streamline workflows. We'll also discuss best practices in patient safety, fostering innovation and navigating financial and policy challenges. Join us to explore practical, forward-looking approaches to building smarter, more effective care systems.
