

MRP Results: "Thinking about the UK's relationship with the European Union, do you think the UK should be aligned with, or diverge from, EU standards and regulations?"

Fieldwork dates 20 Apr - 9 May 2023
 Sample size 10 102

MRP methodology:

Focaldata specialises in mapping opinion poll data onto smaller geographic areas, using a technique known as MRP, or Multilevel Regression with Post-stratification. Data was collected on Focaldata's online platform, which plugs into a global network of panels and uses machine learning to automatically detect and screen out inconsistent and disengaged respondents. While the sample is not large enough to treat the data as separate constituency polls, we use MRP to look for patterns in responses across constituencies that have similar characteristics, and then work out the implications of those patterns for each constituency.

new_constituency	The UK should be aligned with EU standards and regulations	The UK should diverge from EU standards and regulations	Don't know
