- Receive reports from staff assigned on negotiations and labour management issues concerning the sector and will make recommendations to the President's office on appointment of labour management representatives where appropriate.
- Discuss key issues concerning the sector, including strategy on negotiations, labour management, and organizing.
- The Council will raise issues arising from the Health Services Professionals Bargaining Association (HSPBA) Collective Agreement to the Health Services component.
- The Council will work with the Health Services Component to represent the issues/interests of the Health Science Professionals.
