

My name is **Sonny Aquino** and I have worked in Health Care for over 25 years now, most of you know me from Oak Bay Lodge as a Nursing Care Aide. I currently serve as **Occupational Health and Safety Representative, Joint Occupational Health and Safety Committee member, Occupational First Aide**, and your **union steward Local 401** for over 3 years at the Summit.

I have never held a position in the Executive Board nor at the Local but it is time for you to be heard. A position at the Local for **Member at Large** is up for running and with your vote and given the chance I would like to be your voice to the union. I have represented some of you with the management when things got rough. I will continue to be your advocate and your voice. If you would like to be even heard more give me the opportunity to be your voice if elected.

In Solidarity,

Sonny Aquino
