

- 1** Fold a standard piece of white copy paper (8.5 x 11 inches) into eight even parts like so: **Be sure to fold along the black lines (it may not be exactly even)*

- 2** Now crease those folds so the paper rests like this naturally:

- 3** Now fold the paper in half as below and cut it halfway through so it looks like "4"...

- 4** Place the paper down like so. Now put your index fingers where the arrows are, lifting up while folding the sheet lengthwise over your index fingers...

- 5** During lengthwise folding in step "4" the middle of the sheet should buckle so that it can fold into this form naturally:

- 6** And now you have your eight-page zine! Notice the "starred" page is the front page of the zine. Voila!

Be sure to keep a 5mm / one-fifth of an inch margin (shown in gray) around the *whole piece* of paper to ensure all contents of the zine will photocopy properly.
