

2nd and 3rd Avenues are too narrow for two way traffic. This plan will make traffic flow much smoother.

- 30 kph speed limit signs and painted on the road at intersections with Victoria and Commercial.
- Speed bumps.
- One way on 2nd Ave and 3rd Ave.
  - 3rd Ave should be east so that students can be picked up and dropped off on the passenger side. This also means that those wanting to turn north on Victoria will have less congestion from 3rd Ave since it is further from 1st Ave.
  - 2nd Ave would be west.
- Volunteers at high traffic times can hand out flyers at the incoming intersections to explain that one way at 30 kph is smooth and quick compared to car wars. Include contact info if they want to talk about traffic calming in their own neighbourhoods.

This plan should also reduce the likelihood of people speeding on our lanes.
