Hello, I'm Zali!

I'm your local MP and for the past three years I've been working passionately to represent your views and put forward sensible solutions to today's challenges – from Covid to climate.

Solving these issues presents Australia with a wave of new opportunities. Let's ensure we make the most of them and emerge as a regional powerhouse. To achieve that, I'm committed to putting fair legislation and sensible policies in place to ensure our families, businesses and the environment all benefit.

Having a strong Independent in Federal Parliament means:

Innovation
Clear policy and solutions for climate action

Integrity
A strong Federal anti-corruption body and truth in political advertising

Inclusion
Fighting for respect and equality

Honesty
Representing our community, not political parties or vested interests
