INDEPENDENT FOR WARRINGAH

Smart solutions

Positive impact

Hello, I'm Zali Steggall, your independent MP.

Since 2019, I've been working hard to represent Warringah in parliament and create real impact with smart solutions to key challenges – from cost of living and housing to climate risks.

I've stood up for small business, fought for sensible economic policy, supported families, demanded greater political integrity and championed equality and justice.

I've led the way on climate, calling for faster emissions reduction and resilience planning to counter the risks and costs of climate change.

Safe, supported and strong. My commitment:

- **Safe:** I'm committed to making Australia a safe, respectful place, where we are shielded from climate risks and protected from scams, domestic violence, hate and discrimination.
- **Supported:** I'm focused on reducing cost of living, advocating for more affordable homes, supporting families and small business and assisting everyone in our community to be healthy and better off.
- **Strong:** I'm developing smart solutions and policies for a strong, independent economy that's re-energised through investment and clean opportunities.

I will continue to deliver the smart solutions we need to transition to a strong economy where everyone is safe and supported.

Prioritising our community

We've successfully resolved over 4,500 constituent enquiries on everything from NDIS support to visas.

“

The professionalism, compassion and willingness to try to find a solution was incredible, and it's heartening to know the lengths our local MP's office will go to help constituents.”

MIKE, FRESHWATER

“

Your willingness to help meant the world to me, especially when I couldn't find support elsewhere.”

SANTIAGO, MANLY

“

Allie received her new passport overnight, received an esta so is good to travel. After all she's been through with the stolen passport, your help is really appreciated.”

TESSA, MOSMAN

Community consultation

From meetings with the local chambers of commerce to a town hall with Clean Energy Finance and a webinar with the Minister for the NDIS, I engage with the community to act on your concerns, take on board innovative solutions and draw on local expertise.

The result? Decisions made in open forums not back rooms - in your interest, not vested interest.
