

Greens Are a Global Party

Around the Country

The Green Party has been active in the political landscape of the United States since our inception in 1991, and as of November, 2025, at least 159 Greens held elected office. Greens have been elected at least 1664 times and have run for public office over 7100 times in the United States. Green candidates reject corporate politics and commit to cultivate a just, equitable, and democratic society.

Young People Are Our Future

The Green Party's greatest source of energy and hope is the influx of young people into movements for social and economic justice, ecological wisdom, and global peace. Young Greens fight the marginalization of youth in the U.S. political and electoral process and they value the Green Party's Ecosocialist Platform for a socially and racially just, ecologically sustainable, democratic and peaceful society that exists in harmony with nature. Our party is anti-capitalist, intersectional, anti-oppression, anti-colonialist, and politically independent from the corporate parties and corporate influence.

A Party for a Global People's Movement

We are not alone. Green Parties around the world are mobilizing for people, planet, and peace and challenging corporate politics. Our values for a more peaceful, healthy, just, and democratic world are universal.

The California Green New Deal

ECONOMIC BILL OF RIGHTS

- Workers' rights & safety, living wages, unions, fair trade
- Right to affordable housing and quality healthcare
- Right to free, quality, publicly-funded education

GREEN VALUES

The Green Party of the U.S. has adopted 10 key values. The first four are the pillars of the Global Green Movement.

Peace & Nonviolence

We reject violence at all levels of society, from the family to the nation and beyond. We promote peace by working for justice and by advocating for non-violent resolution to conflict for personal, community and global peace.

Social Justice

Everyone should share in the fruits of our society regardless of gender, race, sexual preference, class, age, or disability. We work for a world in which all can live free of fear and discrimination.

Grassroots Democracy

All human beings have the right and responsibility to participate in the environmental, political and economic decisions that affect their lives.

Ecological Wisdom

Whatever we do to the web of life, we do to ourselves. We are part of nature, not separate from nature. We advocate for the stewardship of our resources for the continued health of our communities and our planet.

Decentralization

Concentration of wealth and power in the hands of the few contributes to social and economic injustice & environmental destruction. We call for local decision making within a framework of ecologically sound, socially just values.

Why Register Green?

Joining the Green Party is a way to vote for your values instead of the "lesser of two evils" Increasing numbers of registered Greens is a clear political statement that Green issues are crucial. By registering Green, you push for policies that benefit the 99% not just billionaires, while you help Greens retain ballot status and improve everyone's electoral choices.

Did you know?

Registered voters in CA can vote Green for local, state and congressional candidates regardless of their party affiliation.

CAGreens.org

Community-Based Economics

Greens seek a new economics based upon the natural limits of the Earth, which meets the basic needs of everyone on the planet, and is under democratic, decentralized community control.

Feminism and Gender Equity

The Green movement is profoundly inspired by feminism. We call for an ethics of cooperation and understanding to replace the cultural values of domination and control.

Respect for Diversity

We honor the biodiversity of the Earth and the cultural, sexual, and spiritual diversity of the Earth's people. We aim to reclaim this country's finest ideals: popular democracy, the dignity of the individual, and liberty and justice for all.

Personal & Global Responsibility

Greens are committed to global sustainability and international justice through both political solidarity and personal lifestyles, based on ecological principles and democratic values.

Future Focus & Sustainability

For the sake of "the seventh generation." we seek to create a society that meets the needs of everyone within the natural limits of the Earth.

The Green Party of California was founded in 1990 and achieved ballot status in 1992. As of Oct. 2025, California has over 113,000 registered Green Party voters.

Our Four Pillars

The Corporate Parties:

Warfare & colonialism
Privatize healthcare
Developer handouts
Defund public education
Block minimum wage raise
Union busting
Expand ICE
Corporate-owned
Voter suppression
Fossil Fuels & Extraction
Prisons & Death Penalty
Tax cuts for the rich
Bank bailouts
Poison our food & water

The Green Party:

Abolish the WAR machine
CalCare: Healthcare for all
Affordable housing
lifelong public education
Living wages
Workers rights & unions
Abolish ICE
Grassroots & not-bought
Publicly-funded elections
100% renewables
Restorative Justice
Invest in communities
Cancel Student Debt
Regenerative Agriculture

5 Ways the Green Party Wins:

1. We win with local and state candidates who are accountable to our communities as public servants and not corporate lobbyists.
2. We win by mobilizing voters who have been turned-off from politics by the corporate parties of war and Wall Streets.
3. We win by fighting for a true democracy with electoral reforms & publicly funded-elections.
4. We win by building the party that challenges corporate domination of U.S. government.
5. We win with growing numbers that can not be ignored by any elected officeholder.
