1.2 General Meetings shall be for the purpose of maintaining communication among the County Council, the membership of the GPOC, and the public.

1.3 All General Meetings shall be wheelchair accessible.

1.4 If requested at least seven (7) days before any General Meeting, the Council shall arrange to provide child care for the duration of the meeting.

1.5 Date and location for the next General Meeting shall be determined by the close of each meeting.

Section 2. County Assemblies

2.1 If deemed necessary by the County Council, or if required by a petition of active members (see Article VI), a General Meeting may become a County Assembly, which is able to conduct official business.

2.2 Establishing a draft agenda for a County Assembly is the responsibility of the Council. (revised June 5, 2011)

2.3 The Council has the task of collecting items and making a draft agenda available to all active members who can be easily reached at least one week in advance.

2.4 The agenda package shall include a draft of all proposals. A proposal which has not been made available in advance to all active members may only come to the floor after agreement of the

County Assembly (2/3 fallback vote).

2.5 Ratification of the proposed agenda and times shall occur at the beginning of the meeting.

Section 3. Quorum

3.1 A quorum shall exist for the purpose of both opening a meeting and making decisions when 20% of the active members of the Green Party of Orange County are present.

3.2 Each active member shall sign in with the Doorkeeper when he/she arrives. The "active" status of the member shall be determined by the Doorkeeper, and a token of some kind shall be issued to plainly distinguish active members from observers in the Assembly.

3.3 The Doorkeeper and Facilitators shall thereafter be responsible for determining whether a quorum exists at any time during the Assembly.

Section 4. Guests and Observers

4.1 The County Assembly may choose to go into closed session with a 4/5 majority vote. Only active members may attend closed sessions. A motion for going into closed session may be proposed as a point of procedure and, at the discretion of the Facilitation Team, voted upon immediately.

4.2 With consensus (4/5 majority fallback vote), the County Assembly may exercise its right to exclude an individual who fails to honor the process and principles of the Green Party. This also may be proposed as a point of procedure as in 4.1 above.

Section 5. Meeting Roles, Duties and Responsibilities

5.1 A County Assembly shall follow the "consensus-seeking process" for making decisions and the meeting roles, duties and responsibilities as outlined in the bylaws of the Green Party of California.

5.2 Except in a closed session, anyone may take part in the consensus-seeking process. Only active members, however, may vote or hold an "unresolved concern". If time is running short, Facilitators shall give preference to active members in recognizing speakers.

Section 6. Election of County Council members in a County Assembly
(revised March 4, 2007)

6.1 When empty seats on the County Council are to be filled in a County Assembly, the following procedure shall be used:

- a. Nominations shall be requested from the floor. Only active members may make or second nominations. Members may nominate or second themselves.
- b. In any election where the number of candidates is less than or equal to the number of seats to be filled, the Threshold Voting System shall be used, as described in Section 6.2.
- c. In an election where there is only one seat to be filled, and more than one candidate, the Preference Voting System shall be used as described in Section 6.3.
- d. In an election where more than one seat is to be filled, and there are more candidates than open seats, the Single Transferable Vote System shall be used, as described in Section 6.4.
- e. Before any election may proceed, the facilitator must determine the total number of authorized voters present. This is necessary to calculate "abstained" votes. The number of "abstained" votes is equal to the total number of authorized voters minus the sum of the "yes" and "no" votes submitted for a candidate.

6.2 Threshold Voting System

- a. Each authorized voter submits a ballot with all the candidates listed and the vote: "yes", "no", or "abstain" to be recorded for each. Election requires approval of 2/3 of those voting, not including abstentions, and 1/2 of those authorized voters present, including abstentions.

6.3 Preference Voting System

- a. Each authorized voter submits a ballot with all the candidates listed and the preference vote to be recorded for each, with a preference number from "1" to the total number of candidates, where a preference of "1" represents the member's first preference. "No Candidate" may also be ranked on the ballot if a voter prefers that a seat remain empty rather than be

filled by candidates subsequent in the ranking. The election is then conducted as follows:

- i. The preference votes are then used to eliminate the low preference candidates. The ballots are sorted by the first-preference votes. The candidate with the least number of first preference votes is eliminated, and those ballots are transferred to the candidate listed as the next preference. This process is repeated until one candidate has more than half the votes cast. If "No Candidate" wins, the seat shall remain empty.
- ii. If while transferring ballots, the candidate listed as the next preference has already been eliminated, then the ballot shall be transferred to the most-preferred choice among those not yet eliminated.
- iii. If while transferring ballots, all candidates listed on a ballot have been eliminated, the ballot is set aside.
- iv. In the event of a tie, either for a winning position, or in determining the "last" position for ballot transferral, the candidate with the most first-preference votes shall prevail. If still a tie, then the second-preference votes are used, then the third-preference votes, and so on. If a tie cannot be broken in this way, It shall be done by drawing lots.

6.4 Single Transferable Vote System

- a. **BALLOTS:** Each voter shall submit a ballot with a number next to the name of each candidate for whom the voter wishes to express a preference: "1" for first preference, "2" for second preference, etc. A ballot paper must include a first preference for the ballot to be counted as valid. If there are gaps in the sequence of numbers (e.g., a "1" and "3" but no "2"), the numbers shall be taken in sequence to represent the voter's preference nonetheless.

If a voter puts a mark next to only one candidate's name, or the ballots are written by hand and only one candidate's name appears on the ballot, that shall be accepted as the expression of a single preference for that candidate and the ballot shall be counted as a valid ballot.

"No Candidate" may also be included on the ballot and ranked, if a voter prefers that the seat remain empty

rather than be filled by any candidates subsequent in the ranking. Votes shall not be transferred to any candidate ranked after "No Candidate" on the ballot.

- b. QUOTA DETERMINED: The number of valid ballots shall be counted, and the "Droop quota" shall be calculated to three decimal places as follows:

$$\frac{\text{total number of valid ballots cast}}{1 + \text{number of seats to be filled}}$$

If the result requires it, .001 may be added to the quota to assure that:

$(\text{number of candidates to be elected} + 1) \times \text{quota} > \text{number of valid ballots}$

- c. FIRST-ROUND COUNTING: All first-preference votes are counted. If a candidate(s) on the first count has a number of first preference votes exactly equal to or greater than the quota, then that candidate(s) is declared elected. If all open seats are filled at this stage, the counting stops.

- d. TRANSFER OF VOTES FROM WINNERS: If a candidate is elected on the first count, and there are seats yet to be filled, the number of votes for that candidate in excess of the number of votes needed to be elected (the surplus) is recorded. All of the elected candidate's ballots are then re-examined and assigned to candidates not yet elected according to the second preferences marked on the ballots of those who gave a first preference vote to the elected candidate. These votes are allocated according to a "transfer value". The formula for the transfer value is:

$$\frac{\text{surplus votes cast for the elected candidate}}{\text{total number of votes received by the elected candidate}}$$

- e. If two or more candidates on the first count gain more than the minimum number of votes needed to be elected, all of those candidates are declared elected. The ballots of the candidate with the largest number of first preference votes shall be re-examined first and assigned

(at the transfer value below) to candidates not yet elected according to the second preferences marked on that candidate's ballots, or the next available preference, if the second preference candidate has already been elected. The ballots of the other elected candidate(s) will then be re-examined and their surpluses distributed in order according to the number of first preference votes each candidate received.

- f. If a candidate reaches more than the minimum number of votes needed to be elected as the consequence of a transfer of votes from an elected candidate, the number of votes in excess of the number of votes needed to be elected (the surplus) will be transferred to other candidates. This transfer will be to the next available preference shown on all of this candidate's ballots. These ballots now include 1) the candidate's first preference ballots, and 2) the parcel(s) of ballots transferred to the candidate from one or more elected candidates. The transfer value for the candidate's first preference shall be calculated to three decimal places as follows:

$$\frac{\text{surplus votes cast for the elected candidate}}{\text{total number of votes received by the elected candidate}}$$

The transfer value for each parcel of ballots transferred to the candidate from one or more elected candidates is:

$$\frac{\text{surplus votes cast for the elected candidate}}{\text{total number of votes received by the elected candidate}} \times \frac{\text{the transfer value of the parcel of ballots received by the candidate}}{\text{total number of votes received by the candidate}}$$

- g. If no candidate has a number of votes equal to or greater than the minimum number of votes needed to be elected, the candidate with the smallest number of votes is excluded. All of that candidate's ballots -- both first preference ballots and any parcel or parcels of ballots transferred from other candidates -- are transferred to candidates who have not been elected or excluded according to the next available preference shown on the excluded candidate's

ballots. The excluded candidate's first preference ballots are transferred to the second (or next available) preferences at full value. Ballots received from previously-elected (or excluded) candidates are transferred at the transfer value at which the ballots were received.

- h. Counting continues in the described sequence: the surplus of elected candidates is assigned until no more candidates are elected, then the ballots of excluded candidates are assigned until another candidate is elected. If only one candidate remains that has not yet been elected or excluded, and one or more seats remains to be filled, and the remaining candidate has not achieved the quota, any unfilled seats shall remain empty.
- i. If, during the transfer of preferences, a ballot paper does not indicate an available preference, the ballot is put aside as "exhausted." This can occur because:
 - * the voter only indicated one, or a small number of preferences;
 - * all the preferred candidates have already been elected or excluded; or
 - * there is a repetition on the ballot in the sequence of numbering preferences.

PROVISIONS FOR TIED VOTES

- j. Where two or more candidates have the same number of first preference votes at the end of a counting stage, and this number is more than the minimum number of votes necessary for election, then the candidate whose surplus is distributed first Shall be decided by lot.
- k. Where no candidate has a number of first preference votes equal to or greater than the number of votes necessary for election at the end of a counting stage, and two or more candidates have the same number of first preference votes, this number being the smallest number of first preference votes gained by any candidate, then the second-choice votes for all candidates shall be counted, and the candidate who is excluded first shall be the one who received the least second-choice votes. If this fails to break the tie, the third-choice votes shall be counted, and the candidate with the least third-choice votes shall be excluded, and so on. If the tie cannot be broken with the votes cast, the first

candidate to exclude shall be decided by lot.

- I. If, at any stage of the count other than during the first count, two candidates have the same number of votes, the candidate who is declared elected first, or who is not excluded shall be:
 - i. the candidate with the larger number of votes in the immediately preceding count where there is a difference in the votes between the two candidates; or
 - ii. the candidate with the larger number of votes in an earlier count, moving backward in time; or
 - iii. the candidate whose name is drawn by lot, where there is no difference in the number of votes between the candidates at any preceding count.

Section 7. Local Meetings

7.1 A "local" is a geographic grouping of Green Party of Orange County members.

- a. It may be defined by city boundaries, postal zip codes, supervisorial districts, State or Federal legislative districts, or by naming streets or other landmarks to define the local.
- b. If any of the boundaries used to define a local change, the local must submit a notification to the County Council within 30 days to maintain its recognized status.

7.2 To be recognized as a local, a group of registered Greens must present a petition signed by one half of one percent of all registered Green voters in Orange County, and describing the geographic area to be included in the local. All signers of the petition must reside within the geographic area proposed to be covered by the local. The petition must also describe a method by which it proposes to elect a liaison to the County Council.

7.3 The local must have its own name. Recognition of a local is not to be construed as authorizing it to use the name "Green Party of Orange County" without express permission from either the County Council or a County Assembly for each instance.

7.4 If a local engages in activities under its own name other than a local County Assembly, it takes full responsibility for them as a separate organization from the Green Party of Orange County.

- 7.5 The local must, by the procedure described in its originating petition, elect a liaison to the County Council. The local's liaison shall have the following responsibilities:
- a. Ensure that the local's agenda in a local County Assembly covers all items on the county-wide agenda.
 - b. Inform the County Council of all decisions reached by the local, and the results of any votes
 - c. Forward copies of all attendance sheets from meetings of the local to the Secretary of the County Council. This will allow meeting attendance at a local meeting to count toward fulfilling Article III, Section 1.2 (a) for participation in a County Assembly.
- 7.6 A local may choose to hold its own County Assembly at a time and place of its choosing so long as it has convened within thirty (30) days after the county-wide County Assembly.
- 7.7 In order to take part in the County Assembly decision-making process, a local must agree to address all proposals contained in the draft agenda of the county-wide County Assembly.
- 7.8 If not all locals reach consensus on a given proposal, each vote of each active member present at a local meeting shall be counted as if he/she had been present at the county-wide County Assembly. If a local reaches consensus, all active members present shall be assumed to have voted in favor of the proposal.
- 7.9 No decision of the County Assembly is complete until all recognized locals have had the opportunity to address the proposal. If a local fails to address a proposal circulated in the draft agenda, the members of that local shall be considered to have taken no part: they are not counted as "yes", "no", or "stand-aside" in the decision making process for that proposal.
- 7.10 While an active member may attend any and all local meetings of a County Assembly, he or she may only hold an "unresolved concern" or vote (should one become necessary) once per proposal.
- 7.11 If a local County Assembly wishes to vote on election of County Council members, it must only vote on the candidates already nominated and seconded at the county-wide County Assembly. It may not make nominations.

Section 8: County Participation on GPCA General Assembly
(revised June 5, 2011)

8.1 Selection of Delegates:

- a. When the date and location of the next General Assembly is known, the County Council shall take reasonable measures to notify the membership of a need for delegates to represent the county. The County Council shall select the delegation from among those active members who volunteer. If there are more volunteers than the number of delegates allotted by the GPCA to the county, alternates may be appointed to fill in for delegates part of the time during the General Assembly.

1. Delegate qualification: Delegates must be active Greens according to Article III, Section 1.2 of these bylaws.

8.2 Advance Discussion and Polling:

- a. If the timing of the publication of the agenda packet for the General Assembly allows, active members shall be notified of how to obtain the packet, and reasonable measures shall be taken to discuss the proposed agenda among members of the GPOC ahead of time. Discussion may take place by email, internet forum, or in a meeting, if time allows.
- b. Straw polls may be taken in discussions of proposed agenda items.
- c. Delegates shall take the results of such polls and discussions under advisement when they participate in the General Assembly.

- a. One or more agenda items which the petitioners feel a need to treat in a County Assembly.

Section 2. Endorsement of Candidates

- 2.1 For the GPOC to endorse a candidate, whether a registered Green or a candidate of any other party, the following procedure must be observed.
 - a. (revised 8/1/2010) Upon knowing that a candidate seeks GPOC endorsement, the Secretary shall see that the candidate knows how to obtain a copy of the GPCA platform, and assist as needed in acquainting the candidate with that platform.
 - b. Upon reading the platform, the candidate shall submit a written statement to the County Council, stating on which platform planks

he/she agrees, and on which he/she disagrees, and reasoning behind such agreement or disagreement.

- c. After (b) above, the Secretary shall set up a meeting between the candidate and the County Council where the Council shall evaluate the candidate's qualifications and prepare a statement of evaluation to be presented to the next County Assembly.
- d. The County Assembly shall hear both the Council's evaluation and the candidate's own evaluation and a vote shall be taken on whether to endorse the candidate.
- e. The candidate shall be considered endorsed if he/she gains the vote of 2/3 of the active members attending the meeting.
- f. When special elections are called, a candidate endorsement may be considered urgent and necessary. If a candidate seeks an urgent endorsement:
 - i. Upon reading the platform, the candidate shall submit a written or verbal statement to the County Council, stating on which platform planks he/she agrees, and on which he/she disagrees, and reasoning behind such agreement or disagreement.
 - ii. At least 4/5 of the County Council must agree that an urgent and necessary endorsement is warranted, and give a preliminary endorsement of the candidate.
 - iii. At least 4/5 of active Greens, by straw poll, must endorse the candidate at the next regularly scheduled General Meeting or via electronic media.

- a. Exactly what is to be endorsed, including all demands being made of whom.
 - b. How/if the endorsement is likely to benefit the GPOC or other organizations involved in the action or pronouncement.
 - c. What the immediate result of the endorsement is likely to be, e.g., where a list of endorsers is likely to be published, and who is likely to see it.
 - d. What deadline there might be for the endorsement to be effective in its publication, e.g., whether there is a publication deadline for something that will include a list of endorsers.
- 3.3 The proposed endorsement shall be addressed at the next regularly scheduled County Council meeting, unless deemed an "emergency." An "emergency" would arise if, under item 3.2d above, an opportunity might be missed if the endorsement waits for the next County Council meeting.
- 3.4 Endorsements may be made in the name of the Green Party of Orange County by consensus of the County Council, or a 4/5 fallback vote.
- 3.5 If deemed an "emergency" in the judgment of the Council Secretary or Chair, or by 2/3 of County Council, the endorsement may be made by a phone or e-mail vote once a quorum (as defined elsewhere in GPOC bylaws) of the Council has responded; and after a consensus or 4/5 fallback vote has been reached.
- 3.6 Any petitioner with concerns about the outcome of an endorsement proposal may petition for the matter to be resolved via County Assembly (see Article VI).
