Mission South Africa

From Port Shepstone, South Africa

Dear Fellow Believers In Christ,

Maggie, Robert and Shirley are back home in South Africa and are busy with the work of ministry once again. "We cannot get over the amazing time we had sharing the goodness of God with all of you in the U.S.," wrote Shirley. "Thank you for all who kept us in their homes. We were treated like royalty!"

At Christmas the trio spread much joy as they were able to take food and clothing to many of the children in the areas around Port Shepstone. Most of the children live with their grandparents as their parents go out to work. The children screamed with excitement as they saw the food and gifts! After the distribution, there were extra clothes that will be donated to Hope House and to the ministry in Siyakwazi.

"Robert has been so good, a true servant of God," Shirley wrote. "He makes time during his working hours to go out and deliver food hampers to the needy. He drove 20 miles to deliver a second-hand bed to a lady who was in need of one."

Maggie continued, "We are so excited to announce that we have started a church building project (Fellowship with God through Salvation Ministries). People in the community went

Work is beginning on a new church building project.

around collecting old blocks from old building sites. They have skilled laborers so that is a great help," Maggie said. "We donated money for the roof and will continue to help complete the roof, windows and all that has to be done to finish the church building. We received many calls from the pastor and congregation thanking us for the meals and donations we brought. They are so excited about the opening even though it is far from completion. We came home tired but so very blessed by their enthusiasm and they are ever so willing as a community to build the the house of the Lord!"

"We are grateful to be part of the missions and serving God," Maggie continued. "It has been a difficult month as there was electricity and water supply cuts. We had to get rid of all the meat in our freezers before it spoiled as we had three consecutive days in our area without electricity. We continuously have a limited schedule for the times we will receive electricity, yet our electric bill remains the same. Unemployment, violence and poverty has increased drastically," Maggie concluded.

"God bless you! We love you and ask that you continue praying for us! All our love from South Africa!"
