FRACKING NEAR ARLINGTON SCHOOLS

A comprehensive inventory of all gas drilling across 2-mile, 1-mile, and 0.5-mile zones surrounding all 76 Arlington Independent School District (AISD) campuses.

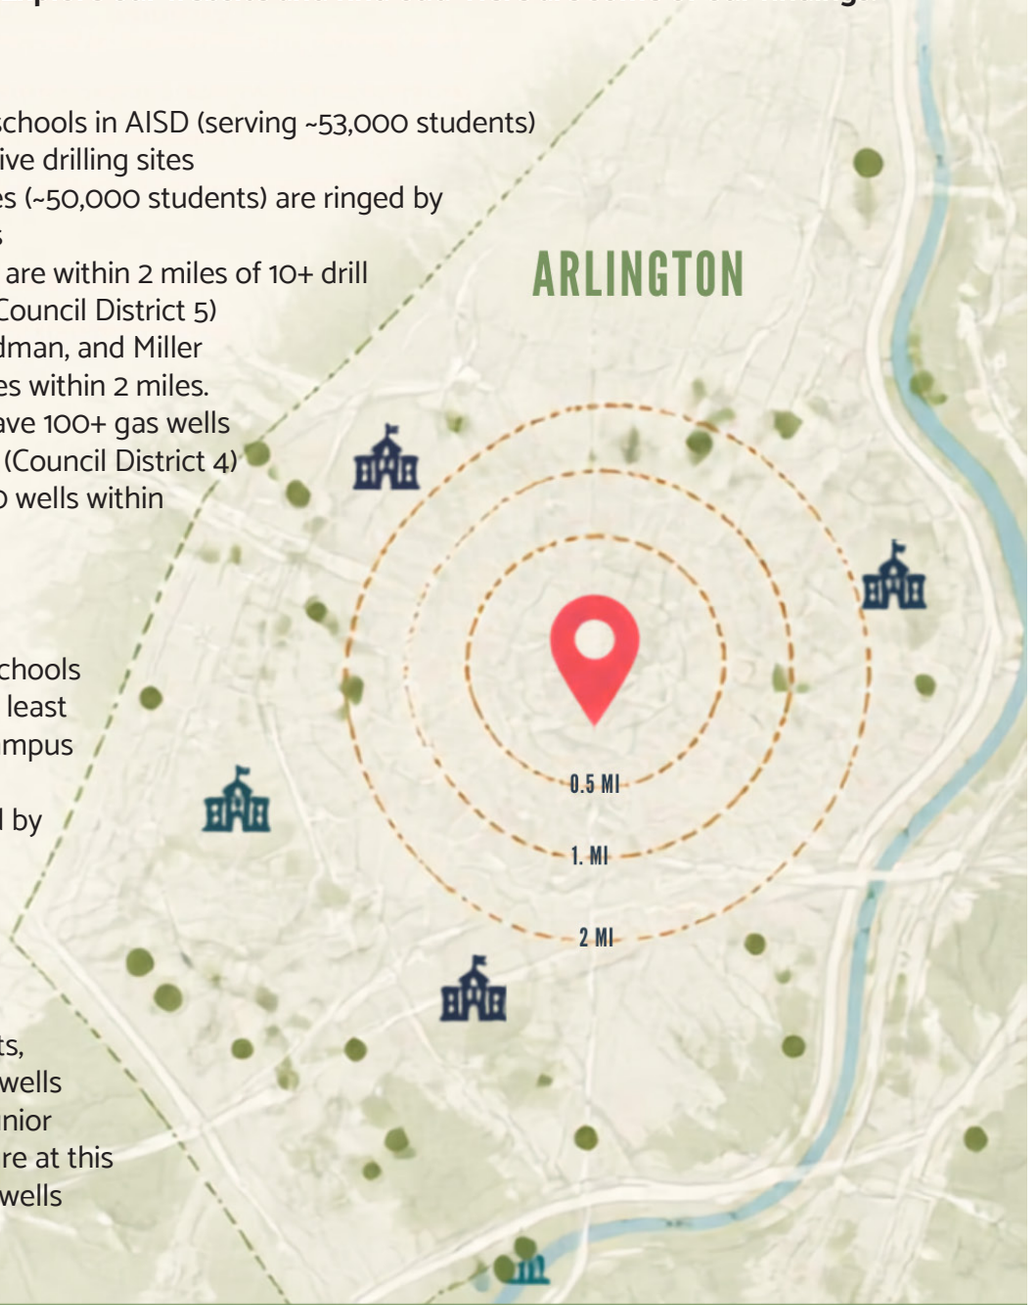

Where does your AISD school stand? Explore our website and find out. Here are some of our findings:

1. Two-Mile Radius Overview

- **Total District Exposure:** All 76 schools in AISD (serving ~53,000 students) lie within 2 miles of at least 3 active drilling sites
- **Ringing Campuses**: 69 campuses (~50,000 students) are ringed by at least 5 drill sites within 2 miles
- **High Concentration:** 18 schools are within 2 miles of 10+ drill sites (8 in Council District 3, 7 in Council District 5)
- **Extreme Exposure:** Amos, Goodman, and Miller Elementary each have 13 drill sites within 2 miles. 32 schools (~25,000 students) have 100+ gas wells within 2 miles. Miller Elementary (Council District 4) is an extreme case with over 200 wells within 2 miles (51 within a half-mile)

2. One-Mile Radius Findings

- **Student & Campus Reach:** 70 schools serving 49,000 students have at least 1 drill site within 1 mile of their campus
- **Dense Clusters:** 8,000 students across 9 schools are surrounded by 5 or more drill sites within 1 mile (7 of these 9 schools are in Council District 5)
- **Massive Gas Well Counts:** 12 schools across the district, representing over 11,000 students, are encircled by 50 or more gas wells
- **Highest Exposure:** Rodriguez Junior High records the highest exposure at this distance with a shocking 70 gas wells within 1 mile of its campus

ADDITIONAL SCHOOL FINDINGS

3. Half-Mile Radius Findings

- **Immediate Proximity:** 44 schools representing 30,000 students have at least one drill site within a half-mile radius
- **Elevated Densities:** Within a half-mile, 33 schools with 24,000 students are exposed to 10 or more gas wells
- **Elementary Vulnerability:** 7 elementary schools—serving 4,000 children—are grappling with 25 or more gas wells
- **Severe Encroachment:** Adams Elementary leads with 4 drill sites hosting a combined 41 gas wells within its half-mile zone (Lonestar is a mere 0.08 miles from the school) Johns Elementary has 3 drill sites within a half-mile

TAKE ACTION & EXPLORE THE DATA

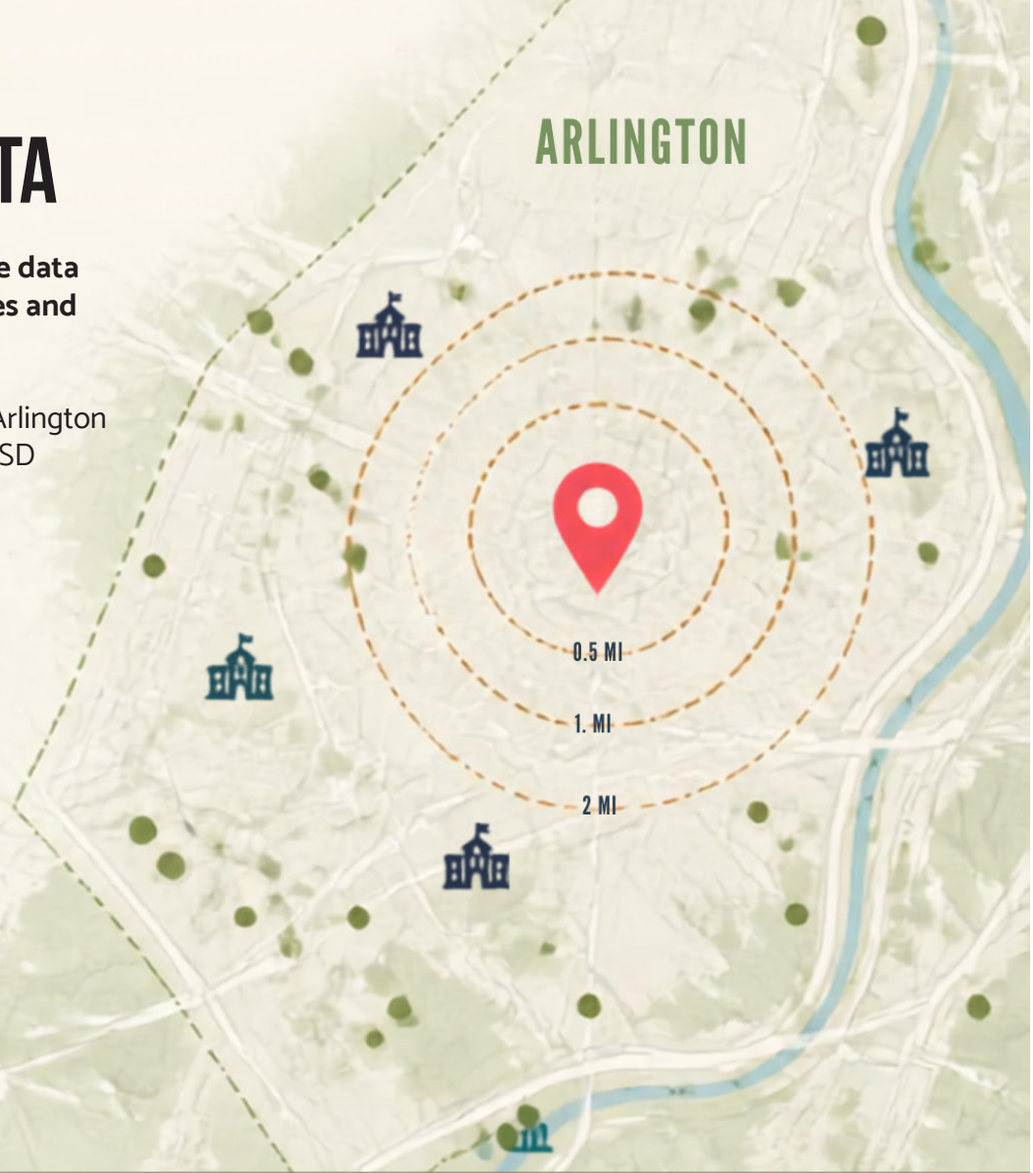

Check your school's exact exposure data using Liveable Arlington's resources and interactive mapping tools:

Database & Reports: Visit Liveable Arlington for individual data sheets on all 76 AISD schools.

Interactive Mapping: Explore the FracTracker Alliance tool to view school locations overlaid with drill sites

Health Impacts: See Concerned Health Professionals of New York's statement on our website
