

**ISRAELI WAR  
CRIMES VIA**

***Elbit Systems***

***Elbit Systems, you can't hide,  
we can see your war crimes!***

*Elbit Systems is Israel's largest weapons supplier and one of its largest companies overall. It supplies 85% of Israel's drones as well as surveillance technology, bullets, land vehicles, white phosphorous and other internationally-banned weapons being used right now to mass murder Palestinians.*

*Israel's regular use of Elbit drones and its other weapons and surveillance products against Palestinians allows Elbit to openly market these products as "battle-proven" to increase sales to other repressive governments worldwide.*
