War in Ukraine may escalate into a U.S.-Russian nuclear war! How many Ukrainians must die and be displaced?

That depends on whether Russia and Ukraine, as well as the U.S. and its allies, will support a negotiated solution, addressing all the issues that set the stage for this war.

We need a global movement to demand an immediate cease-fire and serious peace talks NOW!

The outlines of a peace agreement already exist:
- A comprehensive ceasefire.
- Withdrawal of Russian forces.
- A Ukrainian commitment to international neutrality.
- An agreement/referendum on the disputed Donbas region's future.
- Concrete steps toward Pan-European Security and nuclear disarmament.

This war is a global wake-up call. We must stop the escalation. Cease-fire now! Sending more arms will not stop the war. Negotiations not escalation! Call Congress 202-224-3121

This terrifying war is everyone's problem and should propel us to implement the UN ban on nuclear weapons and move from reliance on fossil fuels to green energy. Instead of war, let's build a peaceful and sustainable world.

JOIN THE MOVEMENT TO END THE WAR!
