

END THE WAR IN UKRAINE!

To Presidents Biden, Putin and Zelensky:

IT'S TIME TO STOP THE KILLING AND DEVASTATION. CEASEFIRE & PEACE NEGOTIATIONS NOW!

The war in Ukraine has taken tens of thousands of Ukrainian and Russian lives, uprooted millions, contaminated land, air and water and worsened the climate crisis.

The longer the war goes on, the greater the danger of spiraling escalation which can lead to a wider war, environmental devastation and nuclear annihilation.

The war diverts billions that could be addressing urgent human needs.

Total military victory cannot be achieved by either Russia or Ukraine. It is time to support the calls by Pope Francis, United Nations Secretary-General Guterres, Presidents Lula da Silva of Brazil, Erdoğan of Turkey, Xi of China, and others for a ceasefire and a negotiated end to this calamitous war.

Stop the killing, agree to a ceasefire and begin negotiations!
