

# END THE GENOCIDE IN GAZA NOW

*At least 119 children in Gaza have been starved to death by Israel.*

*New reports estimate over 680,000 Gazans have been killed by Israel, including 380,000 children under 5. This is 12-14x greater than the figures currently reported by mainstream Western media.*

*At least 428 journalists have been targeted and killed in Gaza (more than any other modern conflict).*

*Over 1000 Palestinians have been murdered while waiting for food at “aid” sites run by the US & Israel since May 2025. The UN reports that Israel is “using food as a tool to conduct targeted and mass disappearances.”*
