

NO WAR ON IRAN! NO REGIME-CHANGE WARS!

President Donald Trump announced a planned prolonged war against Iran after bombing its capital. He stated that American service members would likely be killed in the process. He addressed Iranians, telling them to stay inside because bombs would be dropping all over Iran, and called on them to overthrow their government. The self-proclaimed "peace president" has launched yet another endless war – risking millions of human lives. The entire world should be outraged.

WHY YOU SHOULDN'T SUPPORT A WAR WITH IRAN:

- War will not fix the economic situation in Iran, it will kill working-class Iranians. End the U.S. sanctions that strangle the Iranian economy instead!
- Iran has done nothing to threaten the United States. If anything, it is Trump threatening nuclear war the longer this war rages on: "A whole civilization will die tonight, never to be brought back again."
- Iran did not leave the nuclear deal with the U.S., Trump did.
