

THE WAR ON THE PLANET

1.2 BILLION metric tons of greenhouse gases

According to the Institute for Policy Studies, the U.S. military's emissions between 2001 and 2019 were equivalent to 257 million cars' annual emissions.

2,000 farms, greenhouses, & agricultural sites in Palestine

University of London identified more than 2,000 agricultural sites, including farms and greenhouses, that have been deliberately destroyed, and often replaced with Israeli military earthworks.

93,000 people poisoned in Hawai'i

The U.S. Navy is responsible for thousands of gallons of jet fuel entering the water supply that 93,000 people in Hawai'i rely on. After 10 years, the leak is still not fully cleaned up.

THE U.S. IN AFRICA

The U.S. has **27** military bases throughout the African continent.

The U.S. spends **\$2.1 BILLION** on the U.S. military's Africa command (AFRICOM).

While the Pentagon claims U.S. operations in Africa are centered on training, logistics, and intelligence, reports continue to come out of U.S. forces carrying out raids, airstrikes, and direct combat throughout Africa. Civilians struggle to pursue justice for their family members wrongfully killed by the U.S. In the ten years after AFRICOM's founding, violent events in Africa increased 970%.
