

STOP THIS SUPPLY CHAIN OF DEATH

SPY PLANES FROM NEVADA

US weapons company Sierra Nevada Corporation is operating a contract for spy planes through its subsidiary Straight Flight Leasing Company. This contract is with the British government for contractor-owned contractor-operated spy missions over Gaza. The spy planes and pilots are from SNC, based in Sparks, Nevada, which is a weapons company attempting to militarize vast swathes of Nevada.

PAID FOR BY BRITAIN

The British government has been carrying out spy missions for Israel since December 2023. They operated almost half of all intelligence missions for Israel and have carried out over 600 spy flights. These were previously RAF spy planes, but since August, they have been contracted out to SNC. It is the British taxpayer who is funding them.

LAUNCHED FROM RAF AKROTIRI IN CYPRUS

PROVIDES INTEL FOR ISRAEL TO BOMB GAZA

The intelligence gathered by these planes is given in real-time to Israel, which it uses to target attacks across Gaza. This intelligence has facilitated massacres, including the Nuseirat Massacre in June 2024 which martyred 300 people and wounded over 1000 more. This supply chain has been key to facilitating Israel's genocide in Gaza.

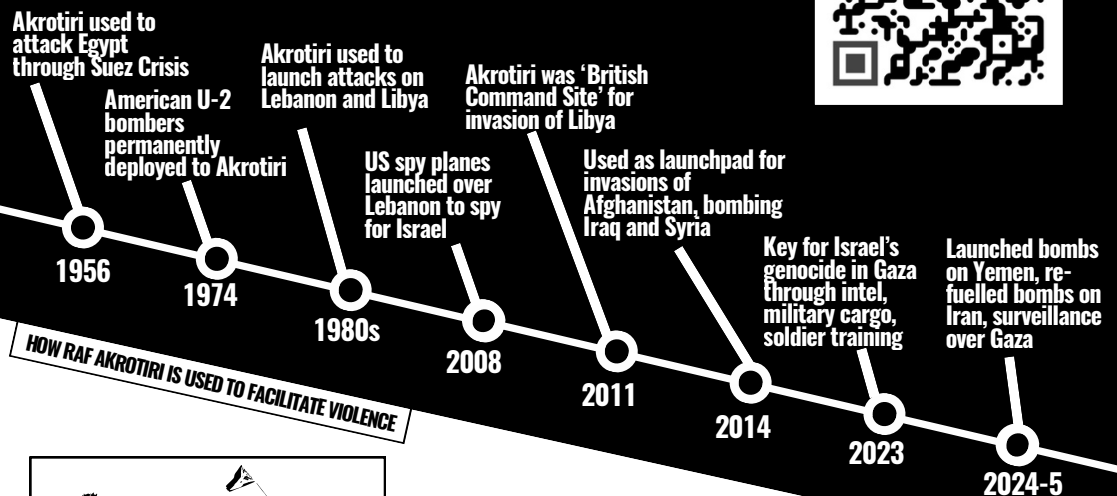

The spy planes are based and launched from RAF Akrotiri, a British military base in Cyprus. Akrotiri is 40 minutes from Gaza by plane, which makes it a key launchpad for Britain, the US, and Israel to send spy missions. It is also used for plane refuelling, weapons transfers, and to train soldiers. US Special Forces are also based at Akrotiri. It is a British colonial base, governed by the British military.

UK-US: BASES OFF CYPRUS

JOIN THE CAMPAIGN

So long as Britain and the US hold colonial military bases in Cyprus, it will be used as a launchpad to facilitate genocide in Palestine as well as attack West Asia and North Africa, including Iran, Lebanon, Yemen, Syria, Libya, and more. Join us to shut the bases down!

JOIN US

WE DEMAND

- Britain immediately halt all surveillance flights over Palestine
- British Ministry of Defence release to the International Criminal Court (ICC) all of their video surveillance footage of Palestine
- Cyprus refuse to allow British, American and Israeli armaments and surveillance flights to use Cypriot-controlled facilities on the island
- U.S. Special Forces out of RAF Akrotiri and Dhekelia
- Britain shut down the military bases and withdraw from Cyprus
