

Never Again Means Never Again: The Message from Nuremberg

The Nuremberg Trials occurred after the global community fought to hold war criminals accountable. After many challenges, for the first time in history (and what was supposed to be the last), war criminals were held on public trial for their crimes. The message, *Never Again*, was a call for the international community to never allow such atrocities to occur again. Now, nearly 80 years later, we are seeing horrendous war crimes being committed against Palestinians at the hands of the U.S. and Israel. We must fight to hold these war criminals accountable!
