Dear Mrs. Čeferin,

November 21, 2025

Israel is committing a genocide. At the time of the writing of this letter, after the ceasefire agreement signing, they are ferociously shelling the Gaza Strip. We write to you as fellow women, partners, mothers, and trailblazers to ask that you do everything in your power to help remove Israel from European football.

We understand the unique influence we as women have in our communities and relationships, and in normal circumstances we would leave that power to each other to wield in private. But we are not living in normal circumstances.

Our world has been turned upside down. We have watched Israel conduct a genocide live streamed to our mobiles for two years and have seen the unimaginable day after day. We have broken down in horror and grief. It is difficult to absorb the direct suffering and the long-term implications of this reality.

While a ceasefire has been announced, the injustice of hundreds of thousands of people murdered, of children bombed to pieces, sniped in the head, and starved to death cannot be swept away or forgotten.

A ceasefire does not bring them back; a ceasefire does not return the destroyed universities, schools, hospitals, city infrastructure and homes to the land; a ceasefire does not clean the water, soil and air of deadly toxins, or guarantee enough food, water and medicine entrance into Gaza; a ceasefire does not erase the monstrosities committed by Israel against Palestinians, against humanity. Even if the bombs and bullets stop, Israel must be held accountable.

We are not facing an entity that brings legitimate claims to the table. We are dealing with a project that, in their practice of dehumanisation, have committed such crimes – killing of civilians, torture, forced displacement, ethnic cleansing, and genocide – that the very foundation of the human experience has been broken. We must not allow Israel to continue with life as usual – in culture, sport, or football – until they end the genocide and their unlawful occupation, and fully comply with their obligations under international law.

If Israel is not held accountable, Palestine and Palestinians will continue to be erased, and our future and that of our children will be in grave danger.

Now is the time for every individual to use their power to protect the global future. We urge you to demand those with whom you have influence urgently act on their moral and legal obligation, and kick Israel out of European football.

Genocide must not be normalised.

In solidarity,

Messages from Signatories

I am a Palestinian woman who has witnessed her people be annihilated by the state of Israel without it being held accountable for any of its crimes. Hold Israel accountable.

– Jumana, Texas, USA

My school-age daughter (photo attached) is a football player in the USA. Her uncles are all football players — and once upon a time, her great grandfather was a footballer in 1920s Palestine. Our family knows that sport and community are tied together, and by extension family and values. We want football to be a sport we can be proud of from a values perspective. Please help make football a humanist experience by supporting Game Over Israel. Thank you.

– Yasmin G, California, USA

I believe in you and your voice matters.

– Síle Seoige, Ireland

I speak with Palestinians in Gaza every day. Their lives, their futures and much of their family has been erased. Settlers are waiting to take their land. They are begging to be heard. Don't turn away from a people who are systematically being murdered and ethnically cleansed from their own land. Do not give Israel impunity. Boycott, divest, sanction. Their crimes must not be laundered through football or any international sports event.

– Jen Brister, Great Britain

As a sports mom, I believe in sportsmanship and the ethics of solidarity and fair play. There is nothing ethical about genocide. Teams and institutions that normalize genocide must be called out — they must not be allowed to cover up their country's unspeakable crimes under the guise of sports. We can all demonstrate that we have a conscience and are willing to act by it.

– Tehmina K

I appeal to you as a woman to consider Israel's systematic violation of women and children, especially in their torture camps. These violations have been well documented, and we need to ban Israel from all sports to avoid normalizing these crimes!

– Sarah J, Georgia, USA

We cannot play games with a country murdering and starving babies and their families...

– Marya S, USA

As a human being, I refuse to normalize a genocide through any means – including sports. Sanction Israel on every level. Their barbarism toward Palestine is a moral injury to us all!!!

– Elizabeth B, California, USA

Please help save the children who are still alive.

– Jane J, California, USA

We must obey the law, and speak up against a western-funded Israeli genocide and apartheid.

– Dina S, USA

How can we continue to bear these atrocities we have all seen? Especially the slaughtering of tens of thousands of little children. My daughter plays soccer and we love the sport in our home and have family all over the world that love this sport, as do millions of others. What an unbelievable platform and opportunity to send a message - Israel is not worthy of playing the most important game in the world because they are committing a genocide in front of our eyes and the world is watching. So many of us are trying desperately to figure out how to help – this is how you can help. Be brave!!!

– Renee, California, USA

My heart is broken over the almost 20,000 children killed in Gaza. There has to be accountability for Israel's actions in Gaza. UEFA must take a clear stand and suspend Israel, just like it suspended Russia over its aggression against Ukraine.

– Agnes P, CA

I listen to testimony of health workers returned from Gaza. Believe me, this is genocidal violence. I'm also old enough to remember how cultural and sports boycotts helped end apartheid in South Africa. Isolate Israel. Let's end apartheid again.

– Catherine C, Ontario, CA

No mother's children should have to grow up in hunger and fear. Genocide is immoral and illegal, under international law. Please use your influence to protect families from erasure and the environment from devastation!

– Leslie H, Texas, USA

As a mother, grandmother and wife, I am sick about the genocide. I lived through South African apartheid, same thing.

– Trudy S, New York, USA

As a soccer athlete, woman, mother, and just a human being – I strongly support kicking Israel out of any and all professional sport venues. We do not support genocide.

– Rachel V, Minnesota, USA

Bearing witness to this genocide - especially watching a generation of children be murdered and orphaned and disabled and traumatized has ripped my heart and soul.

– Kabi, USA

They are all our children.

– Madeline

Israel poses a threat to all life.

– Elizabeth M, Minnesota, USA

Get this genocidal state out of sports! No to occupation and apartheid!!

– Aimee W, California, USA

Israel shouldn't be allowed to participate in anything while committing a genocide.

– Valerie W, California, USA

As a Jewish mother and grandmother, I am saddened and horrified every day by the heartless actions of the country of Israel upon the innocent women and children of Gaza. Too many have died and too many are suffering. We must stand up as women to stop this!

– Deborah D, California, USA

I am a 68 year old Jew and I am HORRIFIED by what Israel has done. HORRIFIED.

– Andrea W, England

Witnessing the genocide has been horrific. Any nation which blatantly breaks international law and disrespects human life like this should not be allowed to carry on with life as usual.

– Jen K, Michigan, USA

Sports, arts, culture can contribute to a genocide too by putting the country on a platform. Please show soccer fans that Israel's genocide is not acceptable.

– Heather A, California, USA

Be on the right side of history.

– Andrea S, Canada

Ethnic cleansing shouldn't be washed over by allowing business as usual and this includes sports. Especially at this high of a global level!

– Gabriela C, USA

We should protect children everywhere. Not normalize a genocide against them.

– Noha A, USA

Amnesty International has accused Israel years ago of apartheid. Apartheid must be dismantled.

– Afsheen M, CA

I am a Jewish American that stands with justice for Palestine!!

– Jane Z, USA

Israel deserves to be held accountable for its genocide of the Palestinian people by any and all means necessary.

– Daniela R, Nevada, USA

As a human being I can't see how a state that has committed genocide in addition to apartheid and a highly brutal and racist policy of occupation and ethnic cleansing can possibly be included in any global cultural and social events. Boycott racist Israel!!!

– Dillon C, USA

We have the power to at least put social pressure to end the genocide. Please do what you can!

– Suzanne S, Texas, USA

Everyone has the right to live free, in peace and in dignity.

– Kenza W, USA

As a mother and a grandmother, it is important that we understand that criminal actions should not be whitewashed, which is what happens when we turn a blind eye and go about sports as business as usual. It normalizes the illegal Occupation.

– Barbara M, USA

Please add your important influence to this effort to make Israel accountable for murdering children. Thank you.

– Cynthia P, California, USA

Israel is continuing to commit genocide with impunity. They must be held accountable and stopped. They should not be permitted to participate in any international events.

– Donna G, Pennsylvania, USA

Israel is now committing genocide against innocent Palestinians and in decades prior committed ethnic cleansing against innocent Palestinians. Allowing Israel full permission to participate in sports normalizes and even supports Israel's crimes against humanity. PLEASE... do not reward Israel's inhumanity. Block all Israeli participation in all activities.

– Linda M, California, USA

These atrocities can't be normalized.

– Genevieve K, Ontario, CA

Yes, in South Africa they boycotted sports teams (rugby) to stop Apartheid and they succeeded.

– Ruthie S, California, USA

Every day, I face the injustice that my children are well fed, sheltered, and have all their limbs, while Palestinian parents are watching their children be murdered and maimed by Israeli soldiers, and struggling to provide food and shelter for their families in the face of Israel's blockade of essential goods.

– Laura G, New York, USA

We must do all we can to end this genocide and ethnic cleansing.

– M. C, California, USA

I am a mother of two small children and that has been my main motivation in being vocal against the genocide! The immense suffering inflicted to the children of Gaza and the thousands of children's lives taken!

– Nathalie G, Switzerland

For all the women in Gaza who have lost their lives, whose children have been murdered, whose husbands have been murdered, stop Israel NOW!

– Penny D, CA

Israel must be held accountable for genocide!

– Charlotte C, California, USA

Israel is continuing to commit crimes against humanity which includes deliberate killing of women and children. The world must stop this genocide.

– Ari S, USA

As a Jewish American woman, I am outraged and saddened by the genocide and human rights abuses committed against our Palestinian brothers and sisters. Until these atrocities end, Israeli athletes should be banned from participating.

– Denise B, California, USA

There may be a “ceasefire” but kids are still being killed, aid is being withheld, and thousands of hostages are still imprisoned. Please let Israel know the world is still watching and we will not go back to usual activities.

– Kristen M, New York, USA

Words are incredibly hard to find to [word] what I think and feel of all this. All of it is beyond any scale. I cry, my heart bleeds for all the children, and I feel deeply for the Mothers of Palestine and especially Gaza. Boycott Israel in all senses, and make Israel accountable for genocide, all the years of terror and ethnic cleansing, all their lies and manipulation of the whole world and for playing victims, killings of people all over the world and the list goes on. No one is safe before Palestinians are safe, and Zionism and fascism is defeated.

– A R, Norway

Watching what children go through in Gaza puts me to tears. Let's do everything we can to stop more suffering.

– Alisar A, California, USA

This so-called 'peace treaty' will not yield long term results and that's from the mouth of Netanyahu. Israel has committed war crimes and Netanyahu is a war criminal, period.

– Michelle L, CA

Palestinians have a right to live!

– Andrea S, California, USA

Israel must be held accountable, otherwise nothing will change. They are the oppressors and the world knows it.

– Florence A, USA

Israel must be held accountable for its crimes against humanity, especially the crimes against menstruating, pregnant and lactating women, their children and to the elderly.

– Julie R, Pennsylvania, USA

I am deeply ashamed by my country's (and therefore my) support of a genocide which is historical in its cruelty. Most of our governments are not behaving well in this situation. It is up to citizens to add pressure where we can. Please encourage this vote. This ceasefire is killing hundreds and is little more than a smoke screen to obscure the continuation of this genocide. Please!

– Nancy B, USA

As a grandmother, I have seen many genocides in my time, but none so long and persistent as the one in Palestine. I cry when I see the photos of starving or mangled bodies still pouring out of there despite the supposed ceasefire.

– Jane K, California, USA

Dear Madam, as an ecologist, I chose 41/2 decades ago not to have children because I thought it was irresponsible to keep adding to the burden of humans upon our Mother Earth. As you can imagine, I am heartbroken and sickened by the utter disrespect and disregard by the Zionist Israeli state project in Palestine for not only their fellow human beings, but also the intentional destruction of the lands and waters of Palestine to prevent their use for cultivation by the indigenous people and to wipe out ancient landscapes. Now having the pleasure of sharing my home with a two-year old, I also share the pain and horror of parents and good-hearted people around the world when I learn about the sadistic barbarism demonstrated by the monsters of the Israeli Occupation Forces and the settlers they protect in their slaughter of Palestinians in both Gaza and the West Bank for not only the past two years, but for the past 77 years. It cannot be that we turn our faces away and pretend that such injustice is something we contemplate only when we are not busy with work or entertaining ourselves by watching a football match (or any other sport.) This is the test of humanity right now. I beg you to please convey to your husband the depth of sorrow that all feeling people around the globe, and especially mothers and grandmothers, have been plunged into as a result of the Israeli genocide of Palestinians. Please convey that it is not right that the Israelis should be able to continue their interactions with the global soccer federation when they might even have been perpetrators themselves. It should be Game Over for the Israel team, for at least 100 years. With great sincerity, Isabelle.

– Isabelle K, California, USA

An illegal occupation committing genocide, starving children, murdering & mutilating pregnant women & their fetuses should never be rewarded with the freedom of sports, the glory of winnings or be able to represent humanity in any capacity. THE ICC HAS ALL THE EVIDENCE.

– Marianne S, USA

As a woman, daughter and sister, as a mother and wife of Jewish Americans, as a friend and sometimes teacher of Palestinians in my community, and as someone who played on team sports for much of my young life way back when I was in school, I know that hewing to a moral compass and being scrupulous and ethical, as well as being reliable, responsible, and honest when mistakes are made, all of these are the characteristics of good sportsmanship and good team players. Israel exhibits none of these characteristics and instead embodies pure malevolence, especially to Palestinians in Gaza and the West Bank who they are trying to wipe off the face of the Earth. That is not how human beings behave, not normal ones at least, and we know they would be just as despicable on any sport field, as they are in the land of Palestinians, which they have occupied and destroyed. Israelis have no right or reason to expect to be included in team sports that are founded on all those honorable characteristics I listed above. Israel would toxify and tarnish, and ultimately tear apart whatever sport they were included in, just by their very public nature of being lying, vicious psychopaths. No one wants them around. Make sure they get that message loud and clear, please!

– Kari A, California, USA

I know it can be frustrating when we feel helpless and unseen. You have power and agency. Please use it to help Palestinians regain sovereignty.

– Ephemera F, Michigan, USA

Humanity is threatened by genocide.

– Catherine H, California, USA

R.I.P. 20, 000 children killed in the Palestinian genocide.

– Sydney B, California, USA

My heart is broken by all the pain and trauma.

– Amy C, California, USA

I have daughters myself, and Palestinian mothers and kids should be safe.

– Ghufraan K, USA

As a woman, I can say that the brutal violence against children and women of Palestine by Israel should be taken seriously... If the international community does not condemn their actions, then what does that say when someone tries to attack a European nation?

– Tyra P, Oregon, USA

Those people have killed children and fetuses and made children watch as their parents were killed and homes destroyed. They all need to be held accountable.

– Rehab F, CA

Israel has lied for the entirety of this genocide and must be held accountable. Netanyahu is a war criminal.

– Courtney L, Michigan, USA

We women must hold our loved ones accountable for the harmful decisions they may try to make & guide them to make meaningful & often hard decisions.

– Mishwa L, California, USA

It's time for justice for Palestine and its people. There can be no lasting peace without an end to the Israeli occupation and accountability for its crimes and genocide against the Palestinians for almost 8 decades. Also, Israel has already broken the ceasefire by killing more civilians and continues to deny aid at the scale needed. They will likely continue their oppression as they have always done. They break every ceasefire agreement. It's time to keep pressure on them and a free Palestine.

– Adrienne K, USA

Please stop the slaughter. Please let them live & thrive & survive. Please.

– Kaitlynn K, CA

It has been the most shocking and depressing time in my whole life to witness not just the total demonisation and open destruction of a population, but the absolute lies and hypocrisy of our leaders in politics, sport, communities, media etc. This is the Post-Truth era. And it is these lies that give the ability to torture, abuse, round up and wholesale murder a population who have done no crime but simply live on the land that others lust after. The lies and false rhetoric belong in the 1930s but have been appropriated exactly by those who say "never again". But unless it is "never again" for EVERYONE, it cannot be never again for anyone. Racial supremacy is wrong no matter who espouses it. Murder and widescale arrests and starvation are WRONG,

even if it is your fabricated enemy. There are standards in the world, and these standards were put in place to safeguard the vulnerable. Israel's narcissism guarantees an unsafe world for all our future generations.

– Linda R, UK

Help to do the right thing.

– Joanatm, Spain

We must not ignore the things happening in our lifetime that will be questioned by future generations asking us what we did to stop it. We are all human, and there are no excuses for human rights abuses. Silence is violence. Complicity is conformity. End the genocide.

– Ash W, Nevada, USA

Tens of thousands of innocent babies have been killed by Israeli war crimes!

– Susan F, USA

It's been so sad to see the talented Palestinian athletes killed.

– Karen P, Nevada, USA

Make Israel accountable with full reparations for civilians, women, children.

– Isabel H, USA

Hold Israel accountable for genocide and apartheid!

– Lisa J, California, USA

As a woman and caregiver, it's abhorrent to see a team Israel in a sports league that promotes cooperation and harmony through sports. Israel's apartheid genocidal actions should bar them from this activity.

– Diane D, Pennsylvania, USA

What if our babies, our children, our grandchildren had been bombed, burned alive, dismembered, had survived when all family members had been killed? What if our family members were buried under the rubble? The settler colonial Zionist political project is separate from Judaism, which is why so many of our Jewish friends have denounced it, along with the charges of antisemitism hurled at those with legitimate critiques of Israeli actions. The Israeli government acts with total disregard for international law & has yet to be held accountable for its war crimes. The US is complicit. When our governments do not hold perpetrators of atrocities to account, civil society must step in to demand justice. At a minimum, we must not normalize this behavior & continue with business as usual. We have tremendous power to hold war criminals accountable when we work together. Our children will know what we did, & did not do, in this time of darkness. We must have the courage to rise up & challenge the impunity enjoyed by the world's most powerful governments.

– Sarita S, California, USA

No one is free until we all are free.

– Mary S, New York, USA

Help the children, protect the women and men, most importantly SAVE humanity.

– Angelica M, California, USA

Beyond shameful to call oneself a woman let alone human if we stand by while this entity commits acts against humanity.

– Kimberly C, California, USA

Dearest Mrs. Čeferin, in Gaza, women like you and I have no access to menstrual care products or clean water to cleanse themselves and are thus subjected to frequent urinary tract infections. Among other hardships affecting people in Gaza, as you could imagine, being a woman or a young girl in Gaza is worse now due to the illegal occupation and siege by Israel which are not allowing the entry of women's menstrual products, food and medicine. Please ask your husband to allow the vote to resume, and to hold Israel accountable for its war crimes.

– Cindy A, USA

As a woman, compassion.

– Julie L, New York, USA

How can we bear the miracles of life and allow the patriarchy, the fathers of life, to crush and destroy the lives we scream, writhe, and die to bring into this world?

– Adriana M, California, USA

I feel powerless that my country is to blame for this genocide and the mass slaughter of innocent civilians. Israel is getting away with killing over tens of thousands of children. Global pressure is working because we stand up for humanity. The dehumanization of Arab people has to stop. The Israeli soldiers are interviewed bragging about how many children they have killed and post pictures in the children's preschools they have bombed playing on their toys. The UN, ICC, and ICJ have not given them justice. We must use every leverage possible to ban and shame them for this genocide. You have the power to make a stance against Genocide. Please stand up for humanity. Mothers and children are counting on you.

– Melanie C, Oregon, USA

The people of Palestine MUST be recognized as HUMAN BEINGS with rights surely as you or your own family would. Israel must be held accountable for what they've done!! It's unreasonable to even think otherwise!

– Deborah L, New York, USA

Please stand up for Palestinian women who are being systematically raped in Israeli torture camps. Israel needs to be isolated as a pariah state for committing genocide and violating Palestinian women.

– Melissa C, Georgia, USA

Israel is a terrorist state & must be held to account for its war crimes, we must stop giving them our hard earned tax dollars to occupy Palestine & treat the good beautiful people like they're disposable & unequal to Jewish people. Equality for all.

– Fanar A, Michigan, USA

Boycott Israel for the atrocities they have committed against the Palestinians! It will never be forgotten! Thousands of innocent lives lost! As a mother of two children, I urge you to take action against the genocide of innocent Palestinian children and women gone by Israel!

– Arezo B, USA

Not only are they committing genocide, they are also celebrating soldiers and civilians raping boys, men, and recently an American tourist in Tel Aviv. The country has gone completely mad and we must do what we can to let them know that this horrific behavior is not tolerated by the rest of the world. Thank you.

– Reneé B, USA

I am pleading with you as a human being to use your power to stop the normalization of killing of men, women and children for the simple reason that they are members of a group known as Palestinian.

– Helen S, USA

Free Palestine.

– Doris M, USA
