

LET'S WIN IN WISCONSIN IN APRIL Let's all help elect Judge Chris Taylor to the Wisconsin Supreme Court

We are on a roll in 2026, building on our 2025 victories. We won a state legislature seat in red Texas, even when Trump campaigned for the Republicans. The losing opponent said, "The Democratic base is energized, and the Republicans stayed home."

Now, we must turn to the elections we are working on to win in April. Today, we are highlighting the Wisconsin Supreme Court race, where we are supporting Judge Chris Taylor.

Judge Chris Taylor is a woman, a lawyer, a jurist, and a former State Representative from Wisconsin. She has both legal and political experience and will help protect voting rights, women's rights, civil rights, reproductive choice, and protect MAGA extremism.

Why is this race important? Wisconsin is a key battleground state where MAGA Republicans have long tried to deny voters their voice through extreme gerrymandering and through the courts. The Wisconsin Supreme Court had been conservative, and over the last three years, we worked hard to help elect judges who will stand up to **MAGA** and uphold fairness. We successfully elected liberal justices Janet Protasiewicz in 2023 and Judge Susan Crawford in 2025. We now have another chance in 2026, with this open judicial seat, to further strengthen the court for Wisconsinites and for America. **By helping Judge Chris Taylor win, we will ensure Wisconsin solidifies its court gains, which protect all of us on voting rights and help win battleground states in national races.**

We are [postcarding](#) and [phone banking](#) for Judge Chris Taylor. Please help us every week, and let's make sure we win this race!
