Jim Robey is Principal of Robey Analytics, LLC, a firm specializing in economic development, workforce development, and site selection services. Jim is an applied economist, economic developer, and site selection consultant, with more than 30 years' experience. He has worked with corporate, nonprofit, units of government, economic development and workforce development organizations in problem solving, strategy, and policy decision making from the local to the national levels. His expertise includes industry studies, occupational analysis, economic impact analysis and modeling, economic and workforce development research and analysis, and site selection assistance. Prior experience includes positions in directing regional research initiatives, economic development, and site selection at both nonprofit and for-profit entities. Jim earned his PhD in Urban Studies, with an emphasis in Economic Development, and his master's degree in Public Administration from Cleveland State University's Levin College of Urban Affairs.
