10. **Oral Arguments on Motions - February 12th, 2019**

initial oral arguments were heard today in Washington County Superior Court regarding the Lawsuit challenging the Magazine Ban which was part of S.55.

Across approximately 1.5 hours, Judge Mary Teachout split the time between listening to the State defend their Motion to Dismiss, listening to the lawyers for the Plaintiffs (of which the VTFSC is a party) defend our motion for Summary Judgment, as well as listening to arguments from both sides as to why the other side's motion was without merit.

Judge Teachout asked clarifying questions to both the Plaintiffs and the Defense regarding their oral presentations, although more questions seemed to be directed at the State.

We can all be very pleased with how our case was presented. We have an exceptionally talented team of highly-experienced and extremely competent lawyers working on this, of which 4 were present today.

We expect a ruling by Judge Teachout on both motions at some point in the near future, we find it highly unlikely however that Judge Teachout will grant the State's motion to Dismiss.

11. Judge Mary Teachout Dismisses both motions, We are Going to Trial
