

CAN'T GET HEALTH CARE?

**BLAME
FORD'S CUTS
NOT
IMMIGRANTS**

**Healthcare crisis is impacting all of us.
Especially low-wage, racialized people.**

Ontario is facing a healthcare crisis because Doug Ford and Sylvia Jones are underfunding the system. This is pushing hospitals to squeeze money from low-wage migrants who don't have health coverage. Migrants already pay for healthcare through their taxes. Families are going into debt and are working second jobs to pay medical bills.

www.healthcare4all.ca

- Ontario Premier Doug Ford is cutting health care funding by \$21 billion.
- Over 60% of Ontario nurses considered leaving nursing due to Ford's wage cuts.
- He is expanding private for-profit clinics, so his buddies can profit off of our health.
- He cut universal healthcare coverage for Ontario residents without immigration status

SHAME!

Did you know that migrants had access to healthcare in Ontario during the pandemic?

When the pandemic hit, the provincial government recognized the importance of migrants in our communities and introduced the Physician and Hospital Services for Uninsured Program (PHSUP) that made sure all migrants had access to healthcare in hospitals.

Did the program bankrupt the system?

No, the program cost only \$7.5 million per year compared to the over \$70 billion Ontario spends on healthcare annually. That is only 0.001% of the healthcare budget but it helped provide care and treatment over 400,000 times in two years
