

# Septic System Remediation Application Insert

1. If you are applying for Septic System Remediation, describe the current system below:

Description of Current System			
Type of Lateral Field:		Size of Tank (in gallons):	
Type of Tank:		Date of Last Tank Pumping (if applicable):	
Maintenance performed in the last 5 years:			
<hr/>			
<hr/>			

2. Distance to a waterbody (stream, lake, etc.)?

---

---

3. Describe the onsite wastewater treatment system (OWTS) failure or maintenance needs. What is the specific extent of failure or maintenance required if applicable?

---

---

4. Please provide the following attachments:

- ☐ Pictures, sketches, and/or maps showing location of system and its components (e.g. tank, lateral field, pipe, etc.) and waterbody if applicable
- ☐ Pictures of OWTS failure (if applicable and observable)
- ☐ Written proof of your OWTS failure or maintenance needs, such as an official inspection report or OWTS observation form completed by a qualified professional within the last 90 days\*

5. Signature/agreement

- I have read and agree with all Rainscaping Cost-Share Program requirements.
- I understand that this program is partially funded with public money, therefore names, addresses, and project data may be shared with partners as requested.
- I understand that the Rainscaping Cost-Share Program parameters and the Rainscaping Guide are provided as guidelines only. Landowners are solely responsible for ensuring the success of their own rainscaping feature designs and implementations. Grant application review and acceptance for funding does not imply program, funder, or partner endorsement or responsibility for proper design, installation, or maintenance.
- I will allow Deer Creek Watershed Alliance representatives to come onto my property to assess and photo-document installed features. I will also allow them to use pictures of this project for outreach efforts or publications. I understand that photographs will not reveal street location or property ownership details without my express permission.
- I understand municipal, county, and/or MSD requirements will be followed for any septic system remediation.

---

Landowner Signature (signature required)

\* Contractors are not currently listed for reference for this type of service. Visit the Missouri Department of Health & Senior Services to view a list of registered onsite wastewater treatment system (OWTS) installers by county at [health.mo.gov/living/environment/onsite/counties/](http://health.mo.gov/living/environment/onsite/counties/). Municipal, MSD, and/or St. Louis County requirements must be followed.
