

2nd Amendment PATRIOTS OF NORTH CAROLINA

APRIL 2022

WE DEFEND FREEDOM

Speak Up, Vet Candidates and Vote Republican

Recently, our friend, former representative and fellow Patriot, Michael Speciale gave an impassioned speech about the importance of ordinary Americans and conservatives speaking up against the unrelenting bullying by the Democrat Left. His presentation was a clarion call for all citizens to push back hard against all the demonstrably destructive policies of the Democrats who continually undermine our freedoms, corrupt our system of justice as well as our once great institutions and that of government. They have abandoned our rule of law, attacked our law enforcement, and created a surge in violent crimes across the country. They have put our nation at tremendous risk by deliberately undermining our brave men and women of the US Border Patrol. The Biden Administration continues to make a mockery of the United States on the world stage while his policies weaken our national defense capabilities. In less than two years Democrats have done all they could to tear down the incredible progress of the Trump Administration and are on their way to fundamentally transform America into a third world socialist nightmare.

What we all must do isn't only about defending the 2nd Amendment, it's quite literally about saving America! Sitting on your hands is simply not acceptable now nor is an occasional barroom debate good enough anymore. It's all hands-on deck if we want to save our country from the wanton destruction of our national sovereignty and our way of life by Biden's horrific policies not the least of which is his "open border" betrayals. *(continued on page 2)*

[Our continuing discussing on the Democrat's instruction manual for anti-2nd Amendment activists to attack our right to keep and bear arms:](#)

Did You Know that Democrats' weapon of choice is psychological rhetoric? They use "emotions" to attack us in just about everything they do to sway public opinion and to advance their agendas such as attacking the Second Amendment!

The following excerpt from their "Preventing Gun Violence Through Effective Messaging" guide instructs their freedom-hating activists:

"#2: TELL STORIES WITH IMAGES AND FEELINGS. Our task is to draw a vivid portrait and make an emotional connection, We should rely on emotionally powerful language, feelings and images to bring home the terrible impact of gun violence. Compelling facts should be used to back up that emotional narrative, not as a substitute for it.

WARNING: Don't break the power and undermine the value of emotionally powerful images and feelings by appearing squeamish or apologetic in presenting them."

TRANSLATION: Democrats instruct their freedom-hating soldiers to "go for the emotional jugular" with a knife crafted from a propaganda campaign, and to give a command performance worthy of an Oscar to force public policy in ways that would make Madison Avenue Advertisers proud. It is well documented that psychologically human beings are emotional creatures and advertisers routinely go after our "feeling" to sell us things we don't necessarily want or need! Don't fall prey to their shameful tactics!

(continued from page 1)

We face a clear and present danger due to the utterly disgraceful mishandling of America's Foreign Policy by a most incompetent Democrat administration and its deliberate dismantling of America's energy independence putting the United States and the free world at the mercy of nuclear extortion by the Axis of Evil: Russia, China, North Korea and Iran.

The midterm election isn't merely crucial for the defense of our Second Amendment, victory over Democrats is of existential importance in the saving of America and to restore what was once and can still be that "shining city on the hill." Post WWII America inspired the whole world to aspire to and work towards a peaceful, free, and unified world. And last I checked, there are still no reports of anyone escaping the "oppressive American tyranny" Democrats always insist we're guilty of in America. The truth is the United States of America remains the world's top destination for all those seeking a better way of life despite Democrat lies.

You can do your part by speaking up against the poisoning of our American culture by the Left. Be that voice at the School Board meetings, speak up at town hearings, challenge the Democrat's ruse to extort more tax dollars on things we don't need or want. Hold your legislators to account in fighting the runaway debt and wasteful spending. Push back hard against the executive fiat by those in office who feel entitled to violate your Constitutional liberties by hiding behind their corrupt abuse of "Compelling State Interest." Democrat's Woke movement, its anarchist foot soldiers like Black Lives Matter, ANTIFA, Occupy Wall Street, Code Pink, and countless other radical lefwing insurgency groups, do not have America's best interest at heart and must be defeated. Therefore, when you vet your candidates and representatives, you need to be sure they believe as you do that the United States Constitution is still the law of the land, that our freedoms guaranteed by our Bill of Rights are granted by God and not by men. You must ask them how they intend to restore our failing systems, how they intend to rout out the corruption that's compromised so much of our once great institutions. How they intend to put an end to the abuse of power and the weaponization of government for partisan goals and political revenge. And you must ensure that they are committed to the defense of the freedoms of the "individual" and not permit the "tyranny of the majority" as Democrats continue to impose on America. In short, you must be sure when they take the oath of office that it is truly meaningful and sacred.

Finally, you must vote Republican because the alternative has demonstrated unequivocally their seething contempt for America's proud heritage, her history, our traditional values, the sanctity of life, our freedoms under our Constitution and America's founding by Divine Providence. No one claims the Republican Party is perfect and if you have issues with them then be the one to help the GOP reform and become an even better party. Be the Reagan not the Ross Perot and keep us unified. Have faith that we shall vanquish Evil in this fight and have faith we shall succeed in our quest for future generations of Americans. Let's go Patriots, for it's our time to restore America's former glory and bring "Freedom and Justice Back" in America. When we are successful, that will also restore America's Global leadership for world peace.
