WE DEFEND FREEDOM

Second Amendment Patriots Hold Workshops to Counter Gun Control Rhetoric

Allow me to ask a rhetorical question: Were there any among us who weren't horrified and heartbroken in the wake of this unspeakable tragedy in Uvalde Texas? Of course not, yet even before we knew what had transpired exactly, the gun-control crowds were whipped into a predictable frenzy vilifying law abiding gun owners like us and calling for more draconian gun control. But just as Tucker Carson rightly pointed out on Fox News, "it won't stop the next Salvador Ramos." Yet here we go again, the Democrat Left just can't contain themselves as they tripped over one another to slam the NRA, Trump supporters and Republicans who support the 2nd Amendment (their go to punching bags). Narcissistic Democrat Beto O'Rourke interrupted Texas Governor Abbot during his Uvalde press briefing in a rant spouting his vitriolic anti-2nd Amendment campaign stump speech. Oh, you didn't know? He's running for governor again!

It is clear Democrats have seized on the back-to-back mass shootings as campaign opportunities for the 2022 elections where they know they must distract the public to overcome the unmitigated disaster that is the Biden administration. Just as they are exploiting the horrors of the Texas massacre, immediately in the aftermath of the horrific Buffalo killing, the media's nauseatingly predictable rhetoric of "pervasive American racism," "hate filled gun-toting white supremacists," and how conservative rhetoric incites "gun-violence" grabbed all the headlines crowding out news that's actually fit to print. In the halls of Congress, Woke-Democrats wasted no time demanding more gun control while blaming Trump supporters and hard-working Americans for the heinous acts of the deranged killers.

For his part, Joe Biden ignores the border crisis he created which increasingly represents a clear and present danger to the safety of all Americans while he calls on Congress to enact more gun control. He even made a special appearance to Buffalo New York exploiting that moment to launch yet another attack on our 2nd Amendment and deflecting attention from the litany of unspeakable chaos he has created since taking office. The textbook use of the Woke-Democrat's anti-gun playbook was on full display: "Never let a good crisis go to waste..." *(continued on page 2)*

Our continuing discussing on the Democrat's instruction manual for anti-2nd Amendment activists to attack our right to keep and bear arms:

The Democrat's Anti-2nd Amendment manual: "Preventing Gun Violence Through Effective Messaging" coaches the activist to go after the "Assault Weapon" (a manufactured term designed to instill fear in the public that these are "extraordinary militaristic killing machines" made for wars and thus inappropriate for civilian use. Quote: "EMPHASIZE THAT EXTRAORDINARILY DANGEROUS, MILITARY-STYLE WEAPONS ARE NOW WITHIN EASY REACH ACROSS AMERICA. (They will surely exploit the Uvalde incident to hammer home this point), "We have to make clear to people that this isn't a conversation about your grandfather's hunting rifle. The fact that military-style assault weapons and high-capacity magazines are routinely available to people in most states is alarming- and surprising-news to many Americans."

TRANSLATION: Scare the living daylight out of unsuspecting regular Americans and exploit the horrific tragedy in Uvalde Texas to hammer home the need to ban AR-15s and "high-capacity" magazines! The truth is the AR-15 in your gun safe has absolutely NOTHING to do with the shocking mass murder committed by a deranged killer with clear psychological issues. The problem with the Democrat's focus on the gun deflects much needed attention on all of us getting to root of the mental health problems in America which is clearly at the root of behavior of these mass murderers. We must first debunk the lie of the Left's assertion that guns are the problem and redirect the attention to seeking REAL SOLUTIONS

(continued from page 1)

Second Amendment . . .

As much as the Democrats' depraved exploitation of horrific human suffering is abhorrent, what is even most reprehensible is the fact that with each crisis such as Uvalde, the avalanche of the Democrat's anti-gun rhetoric completely sucks the oxygen out of the air for any opportunity to explore "real life saving solutions" that target the real causes of these problems in our society. There currently are already twenty thousand gun control laws on the books and not a single one stopped Salvador Ramos. Another twenty thousand laws won't either. Doing what's right has never been the Democrat's mission. They care only about scoring political points. Their strategy of reinforcing the false narratives about gun ownership in America in the court of public opinion remains their go-to tactic of continually inflicting damage to our right to keep and bear arms. Shockingly, even weak-kneed Senate Minority Leader Mitch McConnell has acquiesced to the Left's rhetorical attacks signaling his willingness to accept more Democrat gun control.

Ladies and gentlemen, narratives matter! The Democrats have been creating false narratives for a very long time. They do this on virtually every issue they aim to corrupt including but not limited to attacking the 2nd Amendment. Why, because it works and has been instrumental in their ability to advance their Leftwing causes successfully. Narratives matter because over the decades the Left's lies have quite literally reshaped America's culture to align more with their anti-freedom and anti-American agenda. Infamously, Hitler's propaganda chief quipped, "if you tell a lie often enough eventually it becomes the truth..." This is precisely why it is imperative that we fight back against their lies just as unrelentingly!

To that end, as we continue with our mission of messaging in the defense of our freedoms, the 2nd Amendment Patriots will be holding workshops when we meet the 1st Tuesday of each month. The purpose is to hone our skills at both understanding how we are being attacked, explore the best ways to set the record straight and to craft effective rebuttals against the Left's venomous poisoning of our American culture. This workshop is intended to create and develop our counterattack against their continual obliteration of the truth and their Evil mission of fundamentally transforming America into a Marxist Hellhole. Our fight to ensure the reemergence of Truth-Justice and the American way must be proactive and not be reactionary. We've played defense for far too long! Please join us and add to the conversation!

Grass Roots North Carolina has been a great defender of the 2nd Amendment in our state, and they provide tremendous resources online. Please visit them for great up to date information including the recent primary race results: grnc.org

Letters To The Editor - We want to hear from you.
