## WE DEFEND FREEDOM

### Freedom Justice the American Way

There's a reason that in America Lady Justice is "blind" and that you are "presumed innocent" until and unless proven otherwise. She's supposed to be "blind" to bias and discrimination. She's supposed to be color blind and blind to political affiliation too. In fact, Lady Justice is only empowered to levy "equal justice under the law." That means, under the United States Constitution, American Justice should never provide preferential treatment nor target anyone specifically for more or less scrutiny just because the "authority of the day" has an interest in so doing. Most certainly, specific racial, minority or ethnic groups; political affiliations or religious groups should never be singled out to either be given preferential treatment or be targeted for harassment by the justice system under any circumstances.

America's Founding Fathers designed our system of justice intentionally to place the "burden of proof" on government because those "serving" in the "people's government" are given awesome powers that may deny fellow citizens their Constitutional freedoms. They wrote our Constitution, the

Law of the Land, to prevent authoritarian over-reach, corruption and to protect the sacred rights of the People from being violated without due process.

Let's be clear headed however about what we are currently witnessing in America, especially in the past two years. Does anyone believe the Biden Administration has been faithfully executing its authority in accordance with the Constitution of the United States? And do you think that under Biden, the current Department of Justice

has operated appropriately in accordance with the Law of the Land? Clearly, these are rhetorical questions and sadly the answers are a resounding "Hell NO!" In fact, we have never witnessed such egregious violations of law by any administration and its Department of Justice before in American history even surpassing the dark days of the illegal surveillance by J. Edgar Hoover's FBI.

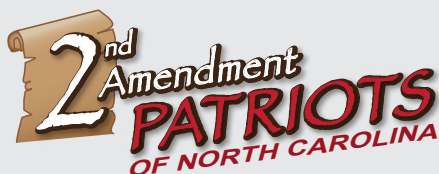

Under the current corrupt federal government, Lady Justice has had her blindfold ripped away and our justice system corrupted to such an extent, you are no longer "innocent until proven guilty" nor does the Constitution protect your freedom to speak freely in the public square without retribution if what you say does not align with what this authoritarian Democrat regime and its surrogates "deem appropriate." As for our Second Amendment, forget due process under the law, Biden's corrupt government wants your guns although the overwhelming majority of citizens have done nothing wrong, nor have a history of violence or criminal behavior. They just feel entitled to ignore our Rule of Law to take our God given rights away just because they deem it so.

(continued from page 1)

There are those who proclaim that we now live in a "post-Constitutional America." I personally disagree strongly with that characterization because, it isn't we who no longer revere our Constitution. I submit most Americans who love America honor our Founding, many have pledged an oath to protect and defend it and have not abandoned our most sacred Document of Freedom! To the contrary, most of us still believe in our Constitution and the resulting greatness in America that were built upon its principles. In fact, we have not broken our oath, nor have we abandoned America! It is the corrupt elitist entitled class and those in Gangster Government led by traitors to our Constitution who are operating in ways utterly antithetical to the United States we love and wish to preserve for many generations to come!

As we ring in this New Year, let's pledge a renewed commitment "to support, defend and preserve the Constitution of the United States against all enemies foreign and domestic." We must continue our fight against all those trying to tear down our nation with their destructive agendas, corrupting our children, devolving America into a lawless nation, selling us out to foreign interests, and sowing division in America by pitting neighbors against neighbors deliberately breaking apart communities for their political power. We must work even harder to put America back on her proper path to freedom and prosperity. We shall continue to put America First that future generations may continue to preserve the United States of America as the "Shiny city on the hill," the Global leader for Freedom and Justice for all mankind.
