## WE DEFEND FREEDOM

### Rule of Law!

Those of us who revere the Second Amendment believe in our Constitution. The legacy of our Founders was truly a gift. What we had been blessed with was a nation of laws. Historically, America has always elected and appointed public servants who have been patriotic gatekeepers of our Constitution and rule of law. That is of course until now.

Today, it is likely you are outraged as am I at the shameless corruption, lawless behavior, disrespect and contempt for our rule of law by those with whom we had entrusted to be honorable stewards of our American Justice System. Remember when President Obama spied on Candidate Trump? Of course not, his crime in harsh contrast to the Nixon Watergate Scandal was buried by the Legacy Media and completely ignored by the U.S. Department of Justice. How about when Hillary Clinton destroyed evidence of her illegal handling of classified materials as Secretary of State? Both the Department of Justice and the FBI gave her a pass. And now irrefutable evidence has surfaced exposing the Biden Family's history of crimes including a video of then Vice President Biden bragging about his extortion scheme to withhold a Billion Dollars in U.S. aid to get the Ukrainian Attorney General fired and stop the investigation of his son Hunter's shady dealings with Burisma, the Ukrainian energy company. None of these crimes met with even the slightest modicum of accountability. No one paid for any of these crimes, not even a fine or a slap on the wrist! Today, there are no serious investigations, in fact, not a hint any of these crimes are being pursued by the Justice Department. Instead, former President Trump, Presidential Candidate for 2024, including his closest Republican supporters are being sued, harassed and persecuted by Democrat prosecutors with a political axe to grind while simultaneously maligned by the leftwing Media doing the Democrat Party's bidding.

These people have weaponized our legal system far beyond the occasional indiscretions to an outright transformation where our federal government usurps its broad powers to protect establishment elites who have committed crimes while viciously persecuting those with who whom they disagree politically. Today, rogue government officials target citizens who's only "crime" is they dare challenge the new normal of:

"Do what I say because I'm the only authority... Oh, BTW, if what I do is criminal, unlike you, because I belong to the enlightened side of the political spectrum, I'm immune from prosecution."

It's official, America now operates on a two tiered Justice System where those who do not subscribe to the Democrat's socialist orthodoxy are routinely vilified, maligned, harassed, or worse, persecuted for daring to push back against what is a clear and present danger to what used to be The United States of America. This destructive

socialist dystopia to where the corrupt leftwing establishment is taking our country is clearly antithetical to everything we Americans have always considered our birth right, our Constitutional guarantees: Our love of life, liberty and the pursuit of happiness! Our love of family is under assault as is our love of life. Traditional American values: patriotism, honor, common decency, and our Judeo-Christian foundation are all under attack. In fact, those who weaponized our justice system make up this "Gangster Government" and they usurp this power in perpetrating all these attacks.

(continued from page 1)

Today our freedom of choice as Americans is routinely assaulted. This Gangster Government wants you to change your behavior to conform to their leftwing Doctrine. They want you to drive electric vehicles because they say so not because it's better for you or the planet because they are not. They want to take away your gas ovens, stop you from driving your gasoline cars, ban plastic bags, ban drinking straws, but you must pay for solar and wind energy only regardless of the high costs or reliability. Meanwhile they want babies to be aborted on demand while they have adult sexual misfits read pornographic books to your children in school. They want you to use public transportation and live in small space-saving multifamily dwellings to be good compliant socialist-green-citizens, but don't you dare try to defend yourself or your family, because you're not allowed to have guns! This while Democrat DAs decline to prosecute felons flooding our communities with violent criminals and lawlessness. Is it any wonder crime in America has skyrocketed under their watch? Meanwhile, the Biden Administration refuses to defend our borders allowing the unprecedented invasion of our country by criminals, terrorists, and illegal migrants. We're suffering the grave consequences of Biden's gross dereliction in ways that defy imagination! We now have fentanyl poisoning at epidemic levels because the criminal drug cartels control our borders. Kidnappings, abductions and the human trafficking trade are at levels we have never seen in the United States all because this Gangster Government refuses to defend our homeland.

Sure, we're focused on the 2024 Presidential Election, because to permit our beloved nation to be run by such an overtly corrupt government for another four years is unthinkable! But will a new Chief Executive be the panacea America needs to save our ship of state? Clearly, it's critically important but a "fix-it-all solution" it is not for we must not ignore the depths to which our Justice System has fallen in failing to respect our Constitutional rule of law. The profoundly troubling abuses of our justice system we've endured from the lawlessness of corrupt government must stop. Our institutions of justice must be purged, reformed and rebuilt with constitutionalists and patriots. A new President, even the best one, cannot do it all alone, he or she will need the help of all Americans. It is We the People who need to step up to ensure only honest constitutionalists are elected and appointed to every key official position in all of our institutions of government. We must never again permit this level of lawlessness and corruption to put America in such chaos. That means we as a people need to ensure only the right people get elected and appointed to every single public service position including an honest constitutionalist dog catcher! Will you step up? Let's roll!
