

WE DEFEND FREEDOM

The UN 2030 Agenda and Disarmament
by Frank Mollica

After watching a video on gun control at my computer I began to do a bit of searching and invariably as I always do and I am sure I am not alone, I fell down the rabbit hole. After visiting numerous websites, I ended up reading a number of articles about the United Nations, finally landing on an article titled Advancing Disarmament within the 2030 Agenda for Sustainable Development. It was written by Izumi Nakamitsu who is the Under-Secretary-General and High Representative for Disarmament Affairs. The call is clear, disarm countries and disarm individuals. Before I go any further, in the interest of full disclosure, I do not support the United Nations, in fact it is a cesspool of Marxists, controlled by our enemies. Instead of getting irate I choose to laugh at the absurdity that is the United Nations and their quest to destroy the United States and install a new world order of global elites. Antonio Guterres, Secretary General, is an internationally acclaimed socialist who could easily be mistaken for Dr. Evil of Austin Powers fame but rather than funny this stooge of the Chinese Communist Party is truly dangerous. So how does the UN feel about the 2nd amendment? Look at their 2030 agenda but first let us look at their founding purpose.

The United Nations (UN) was established in 1945 to prevent wars and maintain international peace and security. They have failed on a colossal scale with hundreds of wars and conflicts across the globe since 1945. Not to men-

Today's UN is well armed and their armies of "Peace Keeping" forces deployed around the world in numerous member's countries.

UN appoints Iran to head the "Human - Rights" Comission despite protests from the United States and Isreal. No surprise they now charge the United Statesand Israel as the world worst violators of human rights.

tion being a money pit for the United States for over 75 years. And of course, the continued attacks of the UN on the United States claiming "large scale" human rights violations, yet the UN rarely scrutinizes the flagrant violations of China, Russia, and other despot governments. I digress, back to the issue of disarmament.

So, the UN is committed to end poverty and hunger but somehow gun ownership stands in their way. The 2030 agenda promotes this nexus that disarmament and economic development go hand in hand. A promise of international peace and security and all you must do is give them your guns because according to the UN guns are bad, unbelievably bad.

(continued from page 1)

Further gun ownership leads to violence, death, and suffering. And if that was not bad enough, they say guns promote social inequality, they must believe that guns or gun owners are racist. They also maintain that guns cause environmental degradation. I am willing to bet that the next thing they say is that guns cause global warming.

As expressed by the UN, a central concern for disarmament and arms control is the protection of civilians from the impact of weapons. It sounds like they want to save us from ourselves and our very bad guns. They say, "You need to hand over your guns and we will protect you, we promise," the perfect recipe for disaster. First the recipe uses false statistics and anti-gun propaganda that calls for gun registration, clearly a gateway to civilian disarmament. Let us make it easy for the tyrants when the time comes by handing over a list of gun owners to the government.

The governments of the world have long understood that armed citizens do not make subservient subjects. Our forefathers also understood that to subjugate a people, those people must first be disarmed and that is why they acknowledged our God given right "shall not be infringed." There is one thing I know for sure, "I will not be disarmed!"

UN Peace Keepers, characterized by their iconic blue helmets are deployed in numerous member nations which the Security Council deems fit to require armed UN troops to "keep the peace." This has sparked protests in several of those nations against the UN.

Please note the 2nd Amendment Patriots Newsletter is published monthly in the County Compass Newspaper.

Donations are appreciated for the publication. Donations are accepted at the Pamlico GOP office in Bayboro.

**PLEASE NOTE:
The 2nd Amendment Patriots meetings will postponed until further notice.**
