

ENVIRONS KIMBERLEY

Strategic Plan 2026 - 2029

Protecting the nature of the Kimberley

We acknowledge the Traditional Owners and Custodians of the Kimberley and their rights and responsibilities to care for Country.

We acknowledge that sovereignty was never ceded and the enduring spiritual, cultural, and social connections Kimberley Aboriginal people have with Country.

Our Purpose

Environs Kimberley was formed with a clear purpose which continues to direct our shared efforts:
Our purpose is to protect the nature of the Kimberley.

Our Values

Our shared purpose requires that we commit to core values that we exhibit in every expression of Environs Kimberley. These define how we act and shape who we are becoming together.

Excellence

We hold ourselves to the highest standards, ensuring our work is thoughtful and effective.

Respect

Our actions are grounded in integrity and care for all.

Proactivity

We see what's needed and act with purpose.

Connection

Our relationships define our work, bringing diverse perspectives to a shared purpose.

Dedication

We are committed to listening and learning, and assessing our effectiveness together.

Our Impact

Our purpose demands that we direct the resources entrusted to us to action that produces sustained impact.

- Kimberley Aboriginal people's knowledge and custodianship is valued and deeply respected as intrinsic to the care of Country.
- The Kimberley's global importance is recognised and celebrated.
- Kimberley land, water and air are sustainably managed and protected for future generations.
- A resilient conservation economy sustains the Kimberley.

Strategic Priorities

Our purpose can most effectively be fulfilled by directing our efforts, energy and resources to the following key priorities.

- Investing in resilient relationships and partnerships.
- Celebrating the Kimberley.
- Strengthening our capacity to demonstrate measurable impact.
- Strengthening our internal foundations.

Every team within EK will be responsible for implementing these priorities in its own context through a separate operational plan.
