# Stop Doug Ford's Cuts and Chaos

Doug Ford's chaotic pandemic response, privatization schemes and cuts to public education have left educators gravely concerned. Parents are anxious and our kids are paying the price.

Students have lost enough. They can't afford another four years of Ford's Conservatives.

We need to build a recovery that gives students and educators the support they need to move forward. That means electing a government that will invest in public education with:

- Smaller classes.
- More support for students who need it.
- Safer, healthier schools.

In this election, vote for better schools, and a better future for our kids. They're counting on us.

**On June 2nd, vote for better schools.**
