

Hi, I am Sandra Lawman and I am standing again to be Secretary of the European Movement UK, which I have already been doing for two years.

I am committed to the cause and I think our role is ever more crucial in the current state of politics. I have been involved with European issues for many years and was a European candidate.

I am an experienced company secretary from several roles, and for the last two years have been coordinating, producing and overseeing minutes and agendas and helping to manage the business of the Board, including reporting to companies house.

I am used to dealing with matters discreetly and on my feet in a highly politicised environment, and was a Liberal Democrat for 27 years, finally on the Federal Finance and Administration Committee.

In EM I have also served on the constitution committee and the audit committee, and I was on the national council for two years before I was secretary.

Do feel free to contact me by DM through the EM council chat, or at secretary@europeanmovement.co.uk

Thanks. I enjoy working with you.
