

TĪTOKI: a development programme of events for rangatahi and adults with Fetal Alcohol Spectrum Disorder (FASD).

FASD-CAN supports Titoki events in Aotearoa, including Pizza Clubs around the motu and our globally innovative weekend camps - which are literally changing lives.

Titoki enables connection, self-determination, self-confidence, whanaungatanga, fun and friendship. Some rangatahi are now engaged in leadership roles and peer support, and are keen to advocate for better public awareness of FASD.

Titoki needs you! Head to FASD-CAN's website or scan the QR code to donate.
