8. I'm going to read you two statements. Please tell me which one you find more convincing as you consider your vote:

**STATEMENT A:** Proponents of the ballot question say that letting gig economy workers remain as independent contractors would protect flexibility in scheduling, while also providing *new* benefits including healthcare stipends, paid leave, and more for all app-based drivers in Massachusetts.

**STATEMENT B:** Several labor unions oppose the ballot question, claiming that gig economy workers would be stripped “of basic employment protections all other employees in Massachusetts are entitled.”

8. I'm going to read you two statements. Please tell me which one you find more convincing as you consider your vote:

**STATEMENT A:** Proponents of the ballot question say that letting gig economy workers remain as independent contractors would protect flexibility in scheduling, while also providing *new* benefits including healthcare stipends, paid leave, and more for all app-based drivers in Massachusetts.

**STATEMENT B:** Several labor unions oppose the ballot question, claiming that gig economy workers would be stripped “of basic employment protections all other employees in Massachusetts are entitled.”

8. I'm going to read you two statements. Please tell me which one you find more convincing as you consider your vote:

**STATEMENT A:** Proponents of the ballot question say that letting gig economy workers remain as independent contractors would protect flexibility in scheduling, while also providing *new* benefits including healthcare stipends, paid leave, and more for all app-based drivers in Massachusetts.

**STATEMENT B:** Several labor unions oppose the ballot question, claiming that gig economy workers would be stripped “of basic employment protections all other employees in Massachusetts are entitled.”

8. I'm going to read you two statements. Please tell me which one you find more convincing as you consider your vote:

**STATEMENT A:** Proponents of the ballot question say that letting gig economy workers remain as independent contractors would protect flexibility in scheduling, while also providing *new* benefits including healthcare stipends, paid leave, and more for all app-based drivers in Massachusetts.

**STATEMENT B:** Several labor unions oppose the ballot question, claiming that gig economy workers would be stripped “of basic employment protections all other employees in Massachusetts are entitled.”

8. I'm going to read you two statements. Please tell me which one you find more convincing as you consider your vote:

**STATEMENT A:** Proponents of the ballot question say that letting gig economy workers remain as independent contractors would protect flexibility in scheduling, while also providing *new* benefits including healthcare stipends, paid leave, and more for all app-based drivers in Massachusetts.

**STATEMENT B:** Several labor unions oppose the ballot question, claiming that gig economy workers would be stripped “of basic employment protections all other employees in Massachusetts are entitled.”

8. I'm going to read you two statements. Please tell me which one you find more convincing as you consider your vote:

**STATEMENT A:** Proponents of the ballot question say that letting gig economy workers remain as independent contractors would protect flexibility in scheduling, while also providing *new* benefits including healthcare stipends, paid leave, and more for all app-based drivers in Massachusetts.

**STATEMENT B:** Several labor unions oppose the ballot question, claiming that gig economy workers would be stripped “of basic employment protections all other employees in Massachusetts are entitled.”

8. I'm going to read you two statements. Please tell me which one you find more convincing as you consider your vote:

Statement A	Statement B	Neither	Undecided	Total
<b>STATEMENT A:</b> Proponents of the ballot question say that letting gig economy workers remain as independent contractors would protect flexibility in scheduling, while also providing <i>new</i> benefits including healthcare stipends, paid leave, and more for all app-based drivers in Massachusetts.				
<b>STATEMENT B:</b> Several labor unions oppose the ballot question, claiming that gig economy workers would be stripped “of basic employment protections all other employees in Massachusetts are entitled.”
