FUTURE GUERNSEY

Research was conducted between 31st July and 31st August 2024 and included x4 focus groups broken out by age category: 19–29, 30–44, 45–64, 65+ and x2 friendship triads with young people aged 16-18.

In addition, a telephone survey of N=250 Guernsey residents between 17-29 Aug was conducted to further explore and validate qualitative findings. Phone interviews surveyed a random sample of Guernsey residents, with broad representation across key demographic categories.
