

Gillette Children's is seeking a **Full-Time Physical Therapist** to work in our **Gait and Motion Analysis lab in St Paul, MN** to provide clinical expertise for direction and accomplishment of data acquisition, interpretation, and report generation for individuals undergoing motion analysis procedures.

Gillette Children's operates one of the world's busiest and most respected clinical gait and motion analysis centers. The James R. Gage Center for Gait and Motion Analysis is known worldwide for its expertise in diagnosing and planning treatments for people with walking and movement disorders.

Pay & Benefits Information:

The hourly wage for this opportunity is \$34.69 to \$52.01, with a median wage of \$43.35/hour. Pay is dependent on several factors including relevant work experience, education, certification & licensure, and internal equity. Hourly pay just one part of the compensation package for employees. Gillette supports career progression and offers a competitive benefits package that includes a retirement savings match, tuition and certification reimbursement, paid time off, and health and wellness benefits.

Qualifications:

Required

- Bachelors, masters, or doctorate degree in physical therapy
- Registration by Board of Physical Therapy for practice in the State of Minnesota
- Knowledge of pathokinesiology and walking disorders in patients with musculoskeletal and neuromuscular diagnosis

Preferred

- At least two years of experience in physical therapy treatment of neuromuscular or orthopedic disorders (pediatrics preferred)
- Demonstrated ability to perform and interpret results of kinematic, kinetic, fine wire EMG, surface EMG, physical assessment and other areas pertinent to gait analysis
