

# Pay Your Tuition Foundation

**“The Pay Your Tuition Foundation (PYTF)**  
creates custom solutions that impact  
communities in the areas of education, health,  
finance, housing, professional development,  
and immigration. Through strategic innovations,  
we empower underserved communities and  
drive forward positive socioeconomic change.”

# College Success Programs

- Loanership
- Child Care Service
- Financial Aid Support
- Career Planning Assistance
- Customized Crowdfunding Platform

# Loanership

Connects families and banks to provide innovative solutions to finance higher education. We believe that technology and data can unlock new solutions to bridge the higher education funding gap. The Student Loanership disrupts the scholarship industry by allowing the funding to double down and work harder for the student, the impact is larger because we build a positive credit tradeline for the student with the scholarship dollars.

# Childcare Service

AssiStu is a marketplace that connects college parents seeking childcare services with college students and other primary caregivers seeking employment.

Low-income college parents may also be eligible for funding to help cover childcare-related expenses.

# Financial Aid Support and Career Planning Assistance

Financial aid applications are not always easy to understand. We provide assistance in accurately composing and submitting these forms.

---

It would be such a waste to spend thousands of dollars on an education that doesn't highlight your natural skills or lead to a fulfilling career. We aid students in discovering and creating a productive and fitting career path.

# Crowd-Funding Portal

A user-based platform that facilitates students having access to various lending and gifting opportunities and financial assistance. Our 501 (c ) 3 public charity allows for donors to get a tax deduction. We have over 8,000 users of our crowdfunding services who have applied for a loan with a lender partner or obtained an emergency microgrant to fill education gaps. Though our platform has been helpful to many, its use can be cumbersome in emergencies.
